TROJANS

WELCOME

Dear Students and Parents:

On behalf of the faculty, administration, and board of education, we welcome you to another school year. We are looking forward to helping your children reach their learning potential and achieve their educational goals in the upcoming year.

Please read this handbook carefully. Students and their parents are responsible for knowing the rules, regulations, and procedures covered in this handbook. The student handbook is an extension of school policies and has the force and effect of board policy when approved by the board of education.

There are several forms at the end of this handbook that you must read, sign, and return no later than August 11th, 2023. We recommend taking care of this on copies of forms that will be available at Open House.

This handbook contains information of value to every student and parent. It contains explanations of school regulations and procedures necessary for our school to run smoothly and efficiently. If you are ever in doubt about what is the right thing to do, ask a classroom teacher, speak with the building principal, or contact the district office.

RECOGNITION OF POTENTIAL AMENDMENTS OR SUPPLEMENTS

The rules and information provided in this handbook may be supplemented or amended by the School District's administration at any time, consistent with applicable law and board policy. All parents shall be provided notice of any such changes by the district's regular means of contact. By signing the student/parent authorization form, you agree that you will read any such information and communications, discuss them with your child, and recognize that you must comply with all rules, procedures, and requirements as they apply at that time.

Sincerely,

Dr. Tiffanie Welte

Intent of Handbook

This handbook is intended to be used by students, parents, and staff as a guide to the rules, procedures, and general information about this school district. Students and their parents must become familiar with the handbook, and parents should use it as a resource and assist their children in following the rules contained in it. The use of the word “parents” refers to any adult who has the responsibility for making education-related decisions about a child, including, but not limited to biological parents, adoptive parents, legal guardians, and adults acting in loco parentis.

Although the information in this handbook is detailed and specific on many topics, it is not intended to be all-encompassing or to cover every situation and circumstance that may arise during a school day or school year. This handbook does not create a “contract” with parents, students, or staff, and the administration may make decisions and rule revisions at any time to implement the educational program and to assure the well-being of all students. The administration is responsible for interpreting the rules contained in the handbook. If a situation or circumstance arises that is not specifically covered in this handbook, the administration will make a decision based on applicable school district policies, and state and federal statutes and regulations.

SECTION ONE - BASIC SCHOOL RULES AND GENERAL PRACTICES

Attendance (Policy #5001)

"School success is 90 percent showing up; the other half is mental." Yogi Berra

Research on policies and practices that effectively encourage regular student attendance share some key components:

1. Education of parents regarding school attendance requirements.
2. Effective policies and practices to monitor attendance.
3. Clear definition of excessive absenteeism and a two-stage response to excessive absences.

The board has considered this educational research and used it to create the following policy on Compulsory Attendance and Excessive Absenteeism.

Required Attendance

Every person residing in the school district who has legal or actual charge or control of any child who is of mandatory attendance age shall cause that child to attend a public or private school regularly unless the child has graduated from high school or has been allowed to dis-enroll pursuant to this policy.

Mandatory Attendance Age

All children who are or will turn six years old before January 1 of the current school year are of mandatory attendance age. Children who have not turned eighteen years of age are of mandatory attendance age.

A child who will not reach age 7 before January 1 of the current school year may be excused from mandatory attendance if the child's parent or guardian completes an affidavit affirming that alternative educational arrangements have been made for the child. A copy of the required affidavit is attached to school board policy.

Discontinuing Enrollment – 5 Year Old Students

The person seeking to discontinue the enrollment of a student who will not reach six years of age prior to January 1 of the current school year shall submit a signed, written request to the superintendent using the form which is attached to this policy. The school district may request written verification or documentation that the person signing the form has legal or actual charge or control of the student. The school district shall discontinue the enrollment of any student who satisfies these requirements. Any student whose enrollment is discontinued under this subsection shall not be eligible to reenroll in this school district until the beginning of the following school year unless otherwise required by law.

Discontinuing Enrollment – 16 and 17 Year Old Students

Only children who are at least 16 years of age may be dis-enrolled from the district. The person seeking to discontinue the child's enrollment shall submit a signed, written request that demonstrates that the student meets the district's legal criteria allowing for disenrollment to the superintendent using the applicable district form. The district will follow the procedures outlined on the attached form in considering requests to dis-enroll. Only children dis-enrolling to attend a non-accredited school may be exempt from this policy. The person with legal or actual charge or control of the child must provide the superintendent with a copy of the signed request submitted to the State Department of Education for attending non accredited schools. The superintendent may confirm the validity of the submission with the State Department of Education.

Attendance Officer

Each building principal is designated as an attendance officer for the district. Each building principal, at his or her discretion, may delegate these responsibilities to any other qualified individual. The attendance officer is responsible for enforcing the provisions of state law relating to compulsory attendance. This responsibility includes but is not limited to filing a report with the county attorney of the county in which a student

resides. Compensation for the duties of attendance officer is included in the salary for the superintendent or designee.

Expectations for Regular Attendance:

1. Students are expected to attend every class, every day.
2. The only "excused" absences that will not count toward the determination of excessive absenteeism from school shall be:
 - a. absences when a licensed health care provider has confirmed in writing that, in his/her professional medical opinion and within his/her scope of practice, the student is so physically or mentally ill that attendance is impracticable or impossible. A doctor's note must be given to the office within 1 school day of the office visit shall be for the time of the appointment and necessary travel time to and from the medical appointment limited to one half day of excused absence.
 - b. absences when the Nebraska State Patrol confirms in writing that the weather conditions have made the roads impassable so that the student's attendance is impracticable or impossible;
 - c. student attendance at a school-sponsored activity in which he/she is a participant;
 - d. student has been suspended or expelled from school by the school district;
 - e. absences required by law enforcement, child protective services or a court of competent jurisdiction, confirmed in writing to the school district within 1 school day of the absence; this does not include driver's exams/license.
 - f. up to 2 college visits per junior and/or senior year confirmed in writing to the school district within 24 hours of the absence
3. All other absences, including absences for minor illnesses, family events, routine medical appointments and the like are simply "absences", and will apply toward the determination of excessive absenteeism from school.
4. Tri County Public School reserves the right to determine if an absence not listed shall be considered an excused absence or an absence.

When students are absent from school, district staff will respond as follows:

First Stage Response to Absences

1. A member of district staff will contact the parent via telephone for every absence if the parent has not contacted the school in advance.
2. After a student's fifth absence or hourly equivalent, the school's building principal will send a letter to the student's parent(s) or guardians.
3. After a student's tenth absence or the hourly equivalent, the building principal will contact the parent(s) or guardian via phone and letter to discuss school attendance.
4. After a student's fifteenth absence or the hourly equivalent, the building principal will meet with the student and parent(s) to determine a collaborative plan to assist the student in improving his/her attendance. This meeting may also include the teacher and/or other service providers who may be of assistance in supporting an attendance plan.

Second Stage Response to Absences

When a student accrues 20 or more absences or the hourly equivalent in a school year for which any portion of the absence is unexcused, the principal will file a report with the county attorney in which the student resides for action under NEB. REV. STAT. § 43-247(3)(a) and (b). For example, if the student accumulates 22 days of excused absences due to documented illness and is tardy one time, the principal must file a report with the appropriate county attorney.

Attendance Incentives

As part of the district's continuous improvement plan, principals will establish attendance incentives for their students. Such incentives may include special promotions and/or recognition or awards for students who meet a predetermined threshold of attendance each quarter, semester, or school year. Principals will provide an attendance report to the Board each semester with a description of trends, incentives used and their impact on improving student attendance.

Absences due to illness

The school district will contact parents if a student becomes ill at school. A student who is absent due to illness has two days for every day of absence to complete missed assignments.

Planned absences

Parents who know in advance that a student will be absent must call the school or send a written note at the earliest possible date. Students who will be absent for reasons that can be anticipated, such as routine medical appointments and school activities, must complete any work required by the teacher before the absence. Parents should make every attempt to schedule medical and other appointments after school hours when possible.

Students are obligated to:

- 1) Complete all class work in advance for any absence that can be anticipated.
- 2) Students must be in school prior to 10:00 AM before attending practice or participating in a scheduled student activity except in cases of family emergencies or pre-arranged absences. This applies to the day of the activity and not any following days.
- 3) Check out of school at the office if leaving school during the school day.
- 4) Make up any and all work that is assigned by teachers as make-up work for the instructional time that has been missed.

Parents are obligated to:

- 1) Call the appropriate building office to inform the school of the reason for each absence.
- 2) Submit

Pregnant and Parenting Students

Students who are pregnant or parenting are encouraged to continue participating in the district's educational and extracurricular programs. Students who anticipate deviations from their regular school experience or accrue absences due to pregnancy or parenting should notify their building principal as early as possible to discuss their educational programming. The building principal will work with the student to develop a plan to assist the student in participating in district curriculum and extra-curricular activities.

Band

Students may participate in the elementary band and begin taking band lessons in the 6th grade. Students in grades 7-8 may participate in the middle school band; grades 9-12 may participate in the high school band. Instruments will be provided by students or the school as provided by school policy. Fees may be charged as allowed or provided in the Public Elementary and Secondary Student Fee Authorization Act and the school's student fee policy or other applicable policy.

Bills

Students should pay bills for supplies, fines, shop materials, clothing orders, etc. in the HS school office. Any check for these payments should be made out to Tri County Public Schools unless otherwise instructed. Pursuant to board policy, the district will assess an additional penalty of \$30 for any check returned from the bank for insufficient funds.

When students purchase items of significant value, such as class rings and letter jackets, they must make payment at the time of purchase or when the order is placed.

Books and Supplies

Students must take care of books and other supplies provided by the district. The school will assess fines for damage to books and school property.

Students must supply their own consumable items such as pens, pencils, tablets, notebooks, erasers, and crayons. Each classroom teacher will prepare a supply list for students at the beginning of the school year.

Breastfeeding and Lactation

In order to accommodate lactating and breastfeeding students, the district will provide reasonable opportunities to express breast milk or breastfeed in a place, other than a bathroom, which is shielded from view and free from intrusion from district students, employees, and the public. The district will also provide a location for students to store expressed breast milk in or near the location designated for students to express milk to create the least amount of disruption to the student's participation in class or activities.

Students who wish or need to express breast milk on a regular schedule must work with school administrators to create a schedule that accommodates the student's needs while facilitating education to the maximum extent possible.

In order to prevent interference with the educational process, no student shall express breast milk within school classrooms or buses. Nothing in this policy limits the authority of the administration to impose consequences consistent with the Student Discipline Act and other state and federal law.

Bulletin Boards

Bulletin boards are maintained throughout the building to communicate general information, material, and school announcements. Students should check the bulletin boards carefully each school day. A written copy of daily announcements will be posted on the main bulletin board by the offices or electronically on the district website.

Bulletin board or electronic publishing space may be provided for the use of students and student organizations for notices relating to matters of general interest to students. The following general limitations apply to all posting or publishing:

1. All postings must be approved by the appropriate building principal or designee. Students may not post any material containing any statement or expression that is libelous, obscene, or vulgar; that would violate board of education policies, including the student code of conduct; or that is otherwise inappropriate for the school environment.
2. All postings must identify the student or the student organization posting or publishing the notice.
3. Material shall be removed after a reasonable time to assure full access to the bulletin boards or electronic publishing media.

Bullying

Students are prohibited from engaging in any form of bullying. The Centers for Disease Control and Prevention defines bullying as “any unwanted aggressive behavior(s) by another youth or group of youths who are not siblings or current dating partners that involves an observed or perceived power imbalance and is repeated multiple times or is highly likely to be repeated.” Nebraska statute defines bullying as “an ongoing pattern of physical, verbal or electronic abuse.” The District’s administrators are authorized to use both of these definitions to determine whether any specific situation constitutes bullying. Both of these definitions include both in-person and cyberbullying behaviors.

The disciplinary consequences for bullying will depend on the severity, frequency, duration, and effect of the behavior and may result in sanctions up to and including suspension or expulsion. Students who believe they are being bullied should immediately inform a teacher or the building principal.

Reporting Bullying

Students who experience or observe bullying behavior must immediately report what happened to a teacher or administrator. Students can use the district’s anonymous

platform to make this report. Students may always confer with their parents or guardians about bullying they experience or witness, but the students must also ultimately report the situation to a teacher or administrator.

Bullying Investigations

School district staff will investigate allegations of bullying using the same practices and procedures that the district observes for student disciplinary matters. In no circumstance will school district staff be deliberately indifferent to allegations of bullying.

Cafeteria Rules

1. All food must be consumed in the areas designated by the school.
2. Food may not be consumed in the locker room.
3. After students have eaten, they must return trays to the kitchen. All straws, papers, milk cartons should be deposited in the trash cans. All leftover food should be scraped off the tray into the correct container. Forks and spoons should be placed in the pan with water, NOT THROWN AWAY!
4. Students are to use proper manners including eating quietly.
5. Students may not throw food or other items.
6. Second servings are available to those who have made an effort to clean their trays and have requisite funds as required by board policy.
7. Students must treat lunch personnel with respect.
8. Students who violate the above rules will be disciplined.
9. Elementary and secondary students will have additional specific expectations students will be required to follow.

Cell Phone and Other Electronic Devices (Policy #6026)

Students may use cellular phones or other electronic devices while at school, outside of the regular school day so long as they do so safely, responsibly and respectfully and comply with all other school rules while using these devices.

By bringing their cell phones and other electronic communication devices to school, students consent to the search of said devices by school staff when permitted by law.

Students may use cell phones or other electronic devices on the school sidewalks and in the common areas of the school before and after school, so long as they do not create a distraction or a disruption. Students may not use cell phones or other electronic devices while they are in locker rooms or restrooms, or any other area in which others may have a reasonable expectation of privacy.

During the school day, students in grades 6-12 may not use cellular phones at any time unless deemed appropriate by a student's education team. The District will provide each student with a Yondr bag, and students must lock their cellular phone in the Yondr bag when the school day begins or upon entering the building. The student may unlock the bag at the end of the school day or when leaving for the day.

The taking, disseminating, transferring, or sharing of obscene, pornographic, lewd, or otherwise illegal images or photographs, whether by electronic data transfer or otherwise

(including things like texting, sexting, e-mailing, etc.) may constitute a crime under state and/or federal law. Any person engaged in these activities while on school grounds, in a school vehicle or at a school activity will be subject to the disciplinary procedures of the student code of conduct.

While on school property, at a school activity, or in a school vehicle, students may not use their cell phones or electronic devices to bully, harass, or intimidate any other person as governed by the student code of conduct.

Students shall be personally and solely responsible for the security of their electronic devices. The district is not responsible for theft, loss or damage of any electronic device, including or any calls or downloads.

Students who violate this policy may have their cell phones or electronic devices confiscated immediately. The administration will return confiscated devices to the parent or guardian of the offending student, after meeting with the parent or guardian to discuss the rule violation. Students who violate this policy may, at the discretion of the school's administration, be subject to additional discipline, up to and including suspension or expulsion.

Cheating, Plagiarism, and Academic Dishonesty

Students may not cheat, plagiarize, or otherwise participate in any academic dishonesty in any form. Prohibited behavior includes:

- Obtaining, attempting to obtain, or aiding another person to obtain credit for work by any dishonest or deceptive means.
- Lying.
- Copying another person's work or answers.
- Discussing the answers or questions on a test or assignment unless specifically authorized by the teacher.
- Taking or receiving copies of a test without the permission of the teacher.
- Using or displaying notes, "cheat sheets," or other sources of unauthorized information.
- Using the ideas or work of another person as if they were your own without giving proper credit to the source.
- Submitting work or any portion of work completed by another person.
- Failing to give credit for ideas, statements, facts, or conclusions which rightfully belong to another person.
- Failing to use quotation marks or other appropriate means of attribution when quoting directly from another person or source.

A student who cheats, plagiarizes, or otherwise participates in any academic dishonesty is subject to discipline, up to and including expulsion.

Child Abuse and Neglect

School employees will report suspected abuse or neglect of a child as required by state law and school policy. Nebraska law defines abuse or neglect as knowingly,

intentionally, or negligently causing or permitting a minor child or an incompetent or disabled person to be (1) placed in a situation that endangers his or her life or physical or mental health; (2) cruelly confined or cruelly punished; (3) deprived of necessary food, clothing, shelter or care; (4) left unattended in a motor vehicle, if such child is six years of age or younger; (5) sexually abused; (6) placed in a situation to be sexually exploited through sex trafficking of a minor as defined in state law or by allowing, encouraging, or forcing such person to engage in debauchery, public indecency, or obscene or pornographic photography, films, or depictions; or (7) placed in a situation to be a trafficking victim as defined in state law.

Chromebook Policy, Procedures, and Information

The focus of the learning with the Chromebook 1:1 program at Tri County Public Schools (TCPS) is to prepare students for their future, a world of digital technology and information. In today's world, excellence in education requires that technology is seamlessly integrated throughout the educational program. Increasing access to technology is essential for that future, and the learning tool of these twenty-first century students is the Chromebook.

The individual use of Chromebooks is a way to empower students to learn at their full potential and to prepare them for the real world of college and the workplace. Chromebooks encourage students to solve problems and think critically by stimulating analytical thinking. Learning results from the continuous dynamic interaction among students, educators, parents and the extended community. Technology immersion does not diminish the vital role of the teacher. To the contrary, it transforms the teacher from a director of learning to a facilitator of learning. Learning with Chromebooks integrates technology into the curriculum anytime, anywhere.

The policies, procedures and information within this document apply to all devices used at Tri County Public Schools. Teachers may set additional requirements for computer use in their classroom.

1. CHROMEBOOK

Chromebook provides the comfort and flexibility of smooth, responsive touch navigation on its 13.3" 16:9 HD (1366x768) non touch display. An integrated keyboard helps with production as well as the oversized trackpad. The Chromebook offers 10 hours of battery life as well as quick charge time. The Chromebook boasts under 13 second boot time. Chromebooks run Chrome operating system which gives students quick access to their Google accounts, applications, and stable browser for all internet applications. The Chromebooks work best when connected to WiFi but have the capability to work offline with file synchronization.

School supplied Chromebooks are all centrally managed through Google Apps for Education (GAFE) management council. Applications and websites can be managed on and off school grounds with the management council and the LightSpeed internet filter.

Website limitations can also be done by individual teachers during class time with the LightSpeed filter management dashboard. Additionally, the students can use the Chromebook to take MAP and NSCAS test.

2. DISTRIBUTION AND COLLECTION OF CHROMEBOOKS

Chromebooks may be stored in the high school library in the evenings. Students will check out an assigned Chromebook from the library and return it at the end of the school day. Students that are required to take the Chromebook home will be issued a pass from their assigned teacher. The student will check out a case and charger from the office to take home and then put his/her pass in his/her assigned slot in the cart. Upon returning to school the student will return the case and charger to the office.

3. TAKING CARE OF CHROMEBOOKS

Students are responsible for the general care of the Chromebook they have been issued by the school. Chromebooks which are broken or fail to work properly must be taken to the technology coordinator.

3.1 General Precautions

- No food or drink should be next to the Chromebooks while it is in use.
- Cords, cables, and removable storage devices must be inserted carefully into the Chromebook.
- Students should never carry their Chromebooks while the screen is open, unless directed to do so by a teacher.
- Chromebooks should be in sleep mode or shut down before moving them to conserve battery life.
- Chromebooks must remain in an “as received” condition, free of any writing, drawing, stickers, labels or other markings that are not the property of Tri County Public Schools.
- Keep magnets and magnetic devices away from the screen and the Chromebook.
- Chromebooks must never be left in any unsupervised area.
- Students must never loan their Chromebook to other individuals.

3.2 Carrying Chromebooks

They should be carried and handled just like a textbook.

3.3 Screen Care

The Chromebook screens can be damaged if subjected to rough treatment. The screens are particularly sensitive to damage from excessive pressure on the screen.

- Students will not lean on the top of the Chromebook when it is closed.
- Students will not place anything near the Chromebook that could put excessive pressure on the screen.

- Students will not poke the screen with sharp objects.
- Students will not place anything on the keyboard before closing the lid (e.g. pens, pencils, or disks).
- Clean the screen with a soft, damp cloth or anti-static cloth if needed.

4. USING CHROMEBOOKS AT SCHOOL

Chromebooks are intended for use at school each day. Students are responsible for accessing all teacher activities, school messages, announcements, calendars and schedules using the Chromebook.

Furthermore, the students will bring their Chromebook to all classes, unless specifically instructed not to do so by their teacher.

4.1 Chromebooks Left at Home

If students are required to take their Chromebook home and they leave it at home, they will receive an office referral and will be loaned a Chromebook for the remainder of the school day. Violations of this policy will result in disciplinary action.

4.2 Chromebook Undergoing Repair

Loaner Chromebooks will be issued to students when they leave their Chromebooks for repair with the technology coordinator.

4.3 Charging a Chromebook Battery

Assigned students will unplug and plug in the Chromebooks before and after school each day. This will ensure that the Chromebooks are fully charged for the next school day.

4.4 Sound

Sound must be muted at all times unless permission is obtained from the teacher. Students are responsible for providing their own headphones.

4.5 Printing

Printing may only be done on the school's network printers. Personal printers at home will not be able to be added to the Chromebook. Printing should be kept to a minimum as teaching strategies will facilitate digital copies of homework. All printing will be done through cloud print.

5. MANAGING FILES AND SAVING WORK

5.1 Saving Work

Students and staff should save documents to folders on Google Drive. Students may also turn on offline sync so they can access files when wireless is unavailable.

5.2 Saving Appropriate Content

The content saved in the cloud (Google Drive) should be specific to education. The space on the Chromebook is limited but the space provided by Google Drive is unlimited.

5.3 Saving Inappropriate Content

Students will be disciplined for saving or viewing any content deemed “inappropriate content” by network and school administration via the school's Student Internet and Computer Access Policy (5037). Inappropriate content includes but is not limited to pornography, offensive content, and other inappropriate material as determined by school administration. Network and school administration will be responsible for determining what is considered to be inappropriate.

6. SOFTWARE ON CHROMEBOOKS

6.1 Originally Installed Software

The software originally installed on the Chromebooks must remain in usable condition and be easily accessible at all times. All Chromebooks are supplied with many applications useful in an educational environment. The school or teacher may add software applications for use in a particular course that will improve engagement within the classroom.

6.2 Additional Software Applications

Students are allowed to install additional applications and extensions on their Chromebook in addition to what is originally installed by Tri County Public Schools. Applications need to be educational in nature and school appropriate to ensure a positive educational environment.

6.3 Monitoring

Students will be monitored at all times during the school day through Internet filtering software. If a staff member suspects inappropriate material resides on the device or the student has violated the Student Internet and Computer Access Policy (5037), the staff member has the right to confiscate the device immediately and submit it to the technology coordinator or administration for further inspection.

6.4 Procedure for Re-loading Software

If technical difficulties occur, it is the policy of the school to use the “10 minute” rule. If the problem cannot be fixed in 10 minutes, the Chromebook will be replaced. In a 1:1 environment, it is impossible for support staff to maintain a working environment for all if too much time is spent on fixing all glitches that may arise. Replacing the Chromebook will not cause the student to lose any information, all student information is stored under the user profile registered to the school's domain.

7. ACCEPTABLE USES

The available software will be usable in upper level as well as entry-level course work.
2. **What if I already have another model or brand of Chromebook computer?** You are required to use the school district issued Chromebook for school purposes. This is necessary to ensure that you have a computer that gives you network capability and the ability to run the software that you will need in your courses. Tri County Public Schools is also limited to providing maintenance service or assistance for only the Chromebooks that we issue. For these reasons, other Chromebook computers will not be used on the Tri County Public Schools network.
3. **Can I have my Chromebook this summer?** No. All Chromebooks will be collected at the end of the school year for general maintenance, cleaning, and software installation purposes. Class Dismissal

Classes are in session from the ringing of the tardy bell until the bell at the end of the period. The bell at the end of the period is not a dismissal bell, and students may not leave their classroom until they have been excused by their classroom teacher. .

Classroom Behavior

Student behavior and attitude in the classroom must be cooperative and serious. All students must:

- arrive to class on time;
- prepare for class with all necessary materials;
- be considerate of others;
- respond promptly to all directions of the teacher; and • take care of school property and the property of others.

Teachers will establish classroom conduct rules that students must obey.

Closed Campus

Students may not leave the building without permission from the administration.

Coats and Boots

Students must put their coat in their locker or assigned hook during the school day. Elementary students must wear coats outdoors when the temperature is below 60 degrees. Elementary students may choose to wear overshoes or boots when the playground is wet or muddy. Waterproof boots worn to school should be taken off and regular shoes worn during the day.

Communicable Diseases

Any student who has contracted a contagious disease may be restricted from attendance at school until the student is no longer contagious. The school district uses the Title 173 - Nebraska Health and Human Services/Control of Communicable Disease, Chapter 3 of the Nebraska Administrative Code as a “best practice” guideline for contagious and infectious diseases. If there are questions regarding the communicability of your child’s health condition or if you know your child has contracted a contagious or communicable disease or condition, please call Tri County Public Schools.

Communicating with Parents

Parents shall be kept informed of student progress, grades, and attendance through report cards, progress reports, personal phone calls, and parent/teacher conferences. The classroom teacher will notify parents if their students are failing or close to failing. The school district will notify parents of failing students prior to entry of the failing grade on the student’s report card. Parents will also be notified of their student’s possible failure to meet graduation requirements. Other pertinent information will be communicated to parents by email or US mail or by personal contact. Official transcripts of student progress, grades, and attendance will be sent to other school systems upon the student’s transfer when the district receives a written request signed by the student’s parent or guardian or upon being notified that the student has enrolled in another school.

Complaint Procedure

Good communication helps to resolve many misunderstandings and disagreements. This complaint procedure applies to board members, patrons, students and school staff, unless the staff member is subject to a different grievance procedure pursuant to policy or contract. Individuals who have a complaint should discuss their concerns with

appropriate school personnel in an effort to resolve problems. When such efforts do not resolve matters satisfactorily, including matters involving discrimination or harassment on the basis of race, color, national origin, sex, marital status, disability, or age, a complainant should follow the procedures set forth below.

A preponderance of the evidence will be required to discipline a party accused of misconduct. This means that the investigator must conclude that it is more likely than not that misconduct occurred.

Complaint and Appeal Process

1. The first step is for the complainant to speak directly to the person(s) with whom the complainant has a concern. For example, a parent who is unhappy with a classroom teacher should initially discuss the matter with the teacher. However, the complainant should skip the first step if complainant believes speaking directly to the person would subject complainant to discrimination or harassment.
2. The second step is for the complainant to speak to the building principal, Title IX/504 coordinator, superintendent of schools, or president of the board of education, as set forth below.
 - a) Complaints about the operation, decisions, or personnel within a building should be submitted to the principal of the building.
 - b) Complaints about the operations of the school district or a building principal should be submitted in writing to the superintendent of schools.
 - c) Complaints about the superintendent of schools should be submitted in writing to the president of the board of education.
 - d) Complaints involving discrimination or harassment on the basis of race, color, national origin, sex, marital status, disability, or age may also be submitted, at any time during the complaint procedure to the School District's Title IX/504 coordinator. Complaints involving discrimination or harassment may also be submitted at any time to the Office for Civil Rights, U.S. Department of Education: by email at OCR.KansasCity@ed.gov; by telephone at (816) 268-0550; or by fax at (816) 268-0599.
3. When a complainant submits a complaint to an administrator or to the Title IX/504 coordinator, the administrator or Title IX/504 coordinator shall promptly and thoroughly investigate the complaint, and shall:
 - a) Determine whether the complainant has discussed the matter with the staff member involved.
 - 1) If the complainant has not, the administrator or Title IX/504 coordinator will urge the complainant to discuss the matter directly with that staff member, if appropriate.
 - 2) If the complainant refuses to discuss the matter with the staff member, the administrator or Title IX/504 coordinator shall, in his or her sole discretion, determine whether the complaint should be pursued further.

- b) Strongly encourage the complainant to reduce his or her concerns to writing.
 - c) Interview the complainant to determine:
 - 1) All relevant details of the complaint;
 - 2) All witnesses and documents which the complainant believes support the complaint;
 - 3) The action or solution which the complainant seeks.
 - d) Respond to the complainant. If the complaint involved discrimination or harassment, the response shall be in writing and shall be submitted within 180 days after the administrator or Title IX/504 coordinator received the complaint.
4. If either the complainant or the accused party is not satisfied with the administrator's or the Title IX/504 coordinator's decision regarding a complaint, he or she may appeal the decision to the superintendent.
- a) This appeal must be in writing.
 - b) This appeal must be received by the superintendent no later than ten (10) business days from the date the administrator or Title IX/504 coordinator communicated his/her decision to the complainant.
 - c) The superintendent will investigate as he or she deems appropriate. However, all matters involving discrimination or harassment shall be promptly and thoroughly investigated.
 - d) Upon completion of this investigation, the superintendent will inform the complainant in writing of his or her decision. If the complaint involved discrimination or harassment, the superintendent shall submit the decision within 180 days after the superintendent received complainant's written appeal.
5. If either the complainant or the accused party is not satisfied with the superintendent's decision regarding a complaint, he or she may appeal the decision to the board.
- a) This appeal must be in writing.
 - b) This appeal must be received by the board president no later than ten (10) business days from the date the superintendent communicated his/her decision to the complainant.
 - c) This policy allows, but does not require the board to receive statements from interested parties and witnesses relevant to the complaint appeal. However, all matters involving discrimination or harassment shall be promptly and thoroughly investigated.
 - d) The board will notify the complainant in writing of its decision. If the complaint involved discrimination or harassment, the board shall submit its decision within 180 days after it received complainant's written appeal.
 - e) There is no appeal from a decision of the board.
6. When a formal complaint about the superintendent of schools has been filed with the president of the board, the president shall promptly and thoroughly investigate the complaint, and shall:

- a) Determine whether the complainant has discussed the matter with the superintendent.
 - 1) If the complainant has not, the board president will urge the complainant to discuss the matter directly with the superintendent, if appropriate.
 - 2) If the complainant refuses to discuss the matter with the superintendent, the board president shall, in his or her sole discretion, determine whether the complaint should be pursued further.
- b) Strongly encourage the complainant to reduce his or her concerns to writing.
- c) Determine, in his or her sole discretion, whether to place the matter on the board agenda for consideration at a regular or special meeting.
- d) Respond to the complainant. If the complaint involved discrimination or harassment, the response shall be in writing and shall be submitted within 180 days after the president received the complaint.

No Retaliation.

The school district prohibits retaliation against any person for filing a complaint or for participating in the complaint procedure in good faith.

Special Rules Regarding Educational Services and Related Services To Students with Disabilities.

Students with disabilities and their families have specific rights outlined in state and federal law, including administrative processes by which they may challenge the educational services being provided by the school district. Therefore, the appeal process contained in this policy may not be used to challenge decisions made by a student's individualized education Plan (IEP) team or 504 team.

Complaints about the educational services provided a student with a disability, including but not limited to the services provided to a student with an IEP, access to curricular and extracurricular activities, and educational placement must be submitted to the school district's Director of Special Education. The Director of Special Education will address the complaint in a manner that he/she deems appropriate and will provide the complainant with a copy of the Notice of IDEA Parental Rights promulgated by the Nebraska Department of Education.

Complaints about the educational services provided a student with a disability pursuant to a Section 504 plan must be submitted to the school district's 504 Coordinator. The 504 Coordinator will address the complaint in a manner that he/she deems appropriate and will provide the complainant with a copy of the Notice of Section 504 Parental Rights Adopted by the board of education.

Complaints about the educational services provided to a student who is suspected of having a disability must be submitted in writing to the school district's Director of Special Education or to the district's 504 Coordinator. The Director of Special Education or 504

Coordinator will either refer the student for possible verification as a student with a disability or will provide prior written notice of the district's refusal to do so.

Bad Faith or Serial Filings. The purpose of the complaint procedure is to resolve complaints at the lowest level possible within the chain of command. Complaints filed (a) without a good faith intention to attempt to resolve the issues raised; (b) for the purpose of adding administrative burden; (c) at a volume unreasonable to expect satisfactory resolution; or (d) for purposes inconsistent with the efficient operations of the district may be dismissed by the superintendent without providing final resolution other than noting the dismissal. There is no appeal from dismissals made pursuant to this section.

The computer system is owned by the school district. As with any school property, any electronic files on the system are subject to search and inspection at any time.
2. The school district uses a technology protection measure that blocks access to some Internet sites that are not in accordance with the policy of the school district. Standard use of the Internet utilizes a proxy server-based filter that screens for non-curriculum related pages.
3. Due to the nature of filtering technology, the filter may at times filter pages that are appropriate for student research. The system administrator may override the technology protection measure for the student to access a site with legitimate educational value that is wrongly blocked.
4. The school district staff will monitor students' use of the Internet through direct supervision and by monitoring Internet use history to ensure enforcement of the policy.

B. Consequences for Violation of this Policy

1. Access to the school's computer system and to the Internet is a privilege, not a right. Any violation of school policy and rules may result in:
 - a. Loss of computer privileges;

- d. Other discipline as school administration and the school board deem appropriate.
2. Students who use school computer systems without permission and for non-school purposes may be guilty of a criminal violation and will be prosecuted.

III. Protection of Students

A. Children's Online Privacy Protection Act (COPPA)

1. The school will not allow companies to collect personal information from children under 13 for commercial purposes. The school will make reasonable efforts to disable advertising in educational computer applications.
2. This policy allows the school to act as an agent for parents in the collection of information within the school context. The school's use of student information is solely for education purposes.

B. Education About Appropriate On-Line Behavior

1. School district staff will educate students about appropriate online behavior, both in specific computer usage units and in the general curriculum.
2. Staff will specifically educate students on
 - a. Appropriate interactions with other individuals on social networking websites and in chat rooms.
 - b. Cyberbullying awareness and response.
3. The School District's building level principals shall inform staff of this educational obligation and shall keep records of the instruction which occurs in compliance with this policy

Conferences

Students' academic success has been closely linked to parental involvement in school. The school district has formal parent-teacher conferences during the first quarter and during the third quarter.

In addition to formal conferences, classroom teachers will communicate with parents as required or on an as needed basis. Parents are encouraged to communicate with their student's teacher or the building principal to discuss parental concerns, student needs or any other issue.

Copyright and Fair Use

The school district complies with federal copyright laws. Students must comply with copyright laws when using school equipment or working on school projects and assignments. Federal law prohibits the unauthorized reproduction of works of authorship, regardless of the medium in which they were created.

The "fair use" doctrine allows limited reproduction of copyrighted works for educational and research purposes. "Fair use" of a copyrighted work includes reproduction for

purposes such as criticism, news reporting, teaching (including multiple copies for classroom use), scholarship, or research. Students who are unsure whether their proposed reproduction of copyrighted material constitutes “fair use” should consult with their teacher or building principal, review the school district’s copyright compliance policy, and review

The school district shall provide dating violence training to staff deemed appropriate by the administration and in accordance with Nebraska law.

They must provide evidence of the vision examination within six months prior to entrance. The cost of such physical examination and visual evaluation shall be borne by the parent or guardian of each child who is examined.

Food Service Program

The school district provides a food service program that is designed to provide adequate nutrition and an educational experience for students.

Breakfast

The school will serve breakfast daily from 7:30 a.m. until 7:55. Students who qualify for free or reduced-price lunch also qualify for free or reduced price breakfast. Meal prices are listed in the Student Fees section of this handbook.

Lunch prices depend on the federal funding that the program receives. Meal prices are listed in the Student Fees section of this handbook.

Milk break

The school will offer a milk program to students in grades K-1. All milk served to a student (except the initial carton served with lunch) will be an added cost per half pint. Milk prices are listed in the Student Fees section of this handbook.

Meal Program - Policy 3013

The school district will make a school meal program available to students. The cost of the program will be determined by the board of education so as to make the program as nearly self-supporting as possible. With board approval, the district may contract with a private company or corporation for the management and/or provision of the program.

The district will notify the families with children attending school of the current guidelines for free or reduced-price school meals. A copy of the complete regulations and procedures regarding reduced-price and free meals shall be available in the office of the superintendent.

Payment for Meals - Policy 2013

Families may pay for school lunches using cash, check, credit card, or ACH payment. Electronic or e-fund payments are also available through a link on the school districts website.

Students are encouraged to pay for meals several weeks in advance. Checks for lunch money MUST be paid separately to Tri County Schools. Please do not include any fees with your student's lunch payment.

If a student has no funds available to pay for a meal, the student will be provided and charged for a limited "courtesy meal" option, such as a plain sandwich.

Meal Charge Policy - Policy 3013

The district will notify students and their families of the policy for Charged Meals, meaning meals received by a student when the student does not have money in hand or

in his or her food account. This policy applies to students who receive meals at the free, reduced, or full rates.

Notice of this policy must be provided in writing to all households at the start of each school year and to households that transfer to the school during the school year. Notice may be provided through the student handbook, student registration materials, online portal used to access student accounts, direct mailing or e-mail, newsletter, the district website, and/or any other appropriate means. Notice of this policy will also be provided all school staff responsible for the enforcement of it, including food service professionals responsible for collecting payment for meals at the point of service, staff involved in notifying families of low or negative balances, and other staff involved in enforcing any aspect of this policy.

The district's policy on charged meals is:

The lunch room staff will remind students at +\$10.00 that their lunch balance is getting low.

The foodservice manager will send an email to the parent(s) when the student has a balance of -\$15.00. If email is not available, a letter will be sent home to the parent(s) of the child.

The building level principal will personally contact the student and the parent(s) when the lunch balance is -\$30.00. The principal will discuss and develop a plan for the parent(s) to reduce the negative lunch balance.

The superintendent will personally contact the parent(s) when the lunch balance is -\$50.00. The superintendent will inform the parent(s) that the student will need to provide their own lunch until the negative lunch balance has been eliminated. The superintendent will also inform the parent(s) that failure or refusal of parents or guardians to provide meals for students may require mandatory reporting to child protection agencies as required by law.

Students who qualify for free meals will not be denied a reimbursable meal, even if they have accrued a negative balance from other food purchases. School staff may prohibit any students from charging a la carte or extra items if they do not have cash in hand or their account has a negative balance.

If a student repeatedly lacks funds to purchase a meal, has not brought a meal from home, and is not enrolled in a free meal program, the district will use its resources and contacts to protect the health and safety of the student. Failure or refusal of parents or guardians to provide meals for students may require mandatory reporting to child protection agencies as required by law.

Collection of Delinquent Meal Charge Debt

The school district is required to make reasonable efforts to collect unpaid meal charges. The building principal or his or her designee will contact households about unpaid meal charges and notify them again of the availability of the free and reduced meal program and/or establish payment plans and due dates by telephone, e-mail, or other written or oral communication. If these collection efforts are unsuccessful, the school district may pursue any other methods to collect delinquent debt as allowed by law.

Collection efforts may continue into a new school year.

In the event that the Nebraska Department of Education develops a state-level meal charge policy, it shall supersede that portion of this policy.

The student cannot ride the school bus until the district has cleared the student to return to school.

The school district may provide a student with instruction in his or her home and under parental supervision if the student is physically or mentally ill or injured and unable to attend regular classes for an extended period of time. Homebound instruction shall be provided when the student's physical and mental condition are such that the student can benefit from instruction and no other provision will meet the student's educational needs.

If you believe that homebound instruction is appropriate for your child, please contact the building principal to initiate the appropriate process to determine eligibility.

Homeless Children and Youth

Homeless students generally include children who lack a fixed, regular, and adequate nighttime residence, as further defined by applicable state and federal law.

It is the school's policy not to stigmatize or segregate homeless students on the basis of their status of being homeless. Transportation for homeless students who enroll in the district shall be furnished by the district under the same guidelines applying to other students or if such transportation is necessary for compliance with federal law.

Each homeless child shall be provided services for which the child is eligible comparable to services provided to other students in the school selected regardless of residency. Homeless children shall be provided access to education and other services that such children need to ensure that they have an opportunity to meet the same student performance standards to which all students are held.

If a homeless child registered to attend school in the district is receiving family reconciliation services pursuant to state law, the district will work in cooperation with any county or department of social services in the district to jointly develop an educational program for the child. The district's homeless coordinator is Dr. Tiffanie Welte who may be contacted at Tri County Public Schools.

Illness or Injury at School

Students who feel ill or are hurt while at school should seek immediate assistance from their classroom teacher or the nearest staff member. Students must also pay for any damage they cause to library books.

Medications

Whenever possible, parents should arrange medication schedules to eliminate the need for giving medication during school hours. When it is necessary for school personnel to administer medication to students, the school district will comply with the Nebraska Medication Aide Act, the requirements of Title 92, Nebraska Administrative Code, Chapter 59, (promulgated by the Nebraska Department of Education and entitled Methods of Competency Assessment of School Staff Who Administer Medication), and all state and federal regulations.

Students who choose not to contribute to the class fund are still eligible to participate in the extra activities. The suggested donation to the class fund will be ~~\$120~~–\$150 per year or the equivalent from fundraising activities sponsored by the class

C. Waiver Policy.

Students who qualify for free or reduced-price lunches under United States Department of Agriculture child nutrition programs shall be provided a fee waiver or be provided the necessary materials or equipment without charge for (1) participation in extracurricular activities, (2) materials for course projects, and (3) the use of a musical instrument in optional music courses that are not extracurricular activities. Actual participation in the free or reduced-price lunch program is not required to qualify for the waivers provided in this section. The district is not obligated to provide any particular type or quality of equipment or other material to eligible students. Students who wish to be considered for waiver of a particular fee must submit a completed fee waiver application to their building principal.

D. Distribution of Policy.

This policy will be published in the Student Handbook or its equivalent that will be provided to students at no cost.

The district will, when appropriate, request donations of money, materials, equipment or attire from parents, guardians and other members of the community to defray the costs of providing certain services and activities to students. These requests are not requirements and staff members of the district are directed to clearly communicate that fact to students, parents and patrons.

F. Fund-Raising Activities

Monies in the Student Fee Fund shall be expended only for the purposes for which they were collected from students.

Student Illness

Students who suffer from a significant illness which has an actual or expected duration of six months or more may be eligible for accommodations and supports under Section 504 of the Rehabilitation Act or under the Individuals with Disabilities in Education Act. The school will provide accommodations to students who are returning to school after a prolonged absence due to illness, including pediatric cancer, through a 504 plan or an IEP, as appropriate. The student's plan will include informal or formal accommodations, modifications of curriculum and monitoring by medical or academic staff as determined by the student's IEP team or 504 committee. Parents and staff will engage in ongoing communication about the needs of a student who is facing these circumstances.

Students who become ill at school will be sent to the building office where the school nurse or other school employee will determine the appropriate response. When a child is too ill to remain at school, a school employee will contact the child's parent(s) and arrange for the child to be picked up or sent home. If an illness or injury requires immediate medical attention, school officials shall attempt to contact the child's parent(s) regarding treatment for the child. If the parents cannot be contacted, school officials may have the child treated by an available physician. Students who show symptoms of a contagious disease may be sent home, and the district may require a physician's statement before allowing such students to return to school.

Student Government

Students are encouraged to formulate and participate in elective and representative student government activities. The organization, operation, and scope of the student government shall be administered by the superintendent or designee.

Student Records

The Family Education Rights and Privacy Act ("FERPA") provides parents certain rights with respect to their student's education records. These rights include the right to inspect and review the student's education records within 45 days of the date the school receives a request for access; and the right to request the amendment of the student's education records that you believe to be inaccurate.

If parents believe one of their student's records is inaccurate, they should write to the school principal, clearly identify the part of the record they want changed, and specify why they believe it is inaccurate. If the school decides not to amend the record as requested, it will notify the parents of the decision and advise them of their right to a hearing regarding the request for amendment.

Directory Information

FERPA and the Nebraska Public Records Law authorize school districts to make "directory information" available for review at the request of nonschool individuals. These laws also give parents and guardians a voice in the decision-making process regarding the disclosure of directory information regarding their children. The school district has designated the following as directory information:

name and grade, name of parent and/or guardian, address, telephone number, including the student's cell phone number, email address, date and place of birth, dates of attendance, the image or likeness of students in pictures, videotape, film or other medium, major field of study, participation in activities and sports, degrees and awards received, social media usernames and handles, weight and height of members of athletic teams, most recent previous school attended, certain class work which may be published onto the Internet, classroom assignment and/or home room teacher, student ID number, user ID, or other unique personal identifier used by the student for purposes of accessing or communicating in electronic systems (but only if the identifier cannot be used to gain access to education records except when used in conjunction with one or more factors that authenticate the user's identity, such as a personal identification number (PIN), password, or other factor known or possessed only the authorized user). Directory information does not include a student's social security number.

Directory information about students may be disclosed to outside organizations without a parent's prior written consent. Outside organizations include, but are not limited to, companies that market or manufacture class rings, sell student photographs or publish student yearbooks.

Federal law requires school districts to provide military recruiters and institutions of higher education with the names, addresses, and telephone listings of high school students unless parents have notified the school district that they do not want this information disclosed without prior written parental consent.

Parents who **OBJECT** to the disclosure of any directory information about their student should write a letter to the principal. This letter should specify the particular categories of directory information that the parents do not wish to have released about their child or the particular types of outside organizations to which they do not wish directory information to be released. This letter must be received by the school district no later than fifteen (15) calendar days after the start of the school year for students.

Non-Directory Information

All of the other personally identifiable information about students that is maintained in the school district's education records will generally not be disclosed to anyone outside the school system except under one of two circumstances: (1) in accordance with the provisions of the FERPA statutes and related administrative regulations, or (2) in accordance with the parent's written instructions.

One FERPA exception permits disclosure to school officials with legitimate educational interests without consent. A school official includes, but is not necessarily limited to, a teacher or other educator, administrator, supervisor, instructor, or support staff member (including health or medical staff and law enforcement unit personnel); school board member; volunteer; contractor or consultant who, while not employed by the school, performs an institutional service or function for which the school would otherwise use its own employees and who is under the direct control of the school with respect to the use and maintenance of PII from education records, such as an attorney, auditor, medical consultant, therapist, or a third-party website operator who has contracted with the school district or its agent to offer online programs for the benefit of students and/or the district; a parent or student volunteering to serve on an official committee, such as a disciplinary or grievance committee; or a parent, student, or other volunteer assisting another school official in performing his or her tasks. A school official typically has a "legitimate educational interest" if the official needs to review an education record in order to fulfill a school related professional, contractual, statutory, or regulatory responsibility.

Transfer of Records Upon Student Enrollment

Upon request, the school discloses education records without consent to officials of another school district in which a student seeks or intends to enroll. The school is not obligated to inform parents when it makes a disclosure under this provision.

Complaints

Individuals who wish to file a complaint with the U.S. Department of Education concerning alleged failures by the School to comply with the requirements of FERPA may contact the Office that administers FERPA:

Family Policy Compliance Office
U.S. Department of Education
400 Maryland Avenue, SW
Washington, DC 20202-4605

Student Schedule Changes

Student schedule changes may be made during the first week of each semester. Drop and Add slips are to be obtained from the office of the Guidance Counselor and must be signed by the guidance counselor before they are presented to the teacher of the class that is to be added or dropped.

After the first week of the semester, students who insist on dropping a class, except for instances of an extended illness, will receive a "0" on their permanent records, and that grade will be averaged into the student's cumulative grade point average. If an extended illness makes it impossible or impracticable for a student to successfully complete a class or classes, the student may be allowed to withdraw from a class or classes as (WP)Withdraw Passing or (WF)-Withdraw Failing. If permission to withdraw as WP or WF is given by the building principal and guidance counselor, the grade(s) will not be averaged into the cumulative grade point average of the student.

Before students are allowed to withdraw from a class as WP or WF, the student, the parents of the student, the guidance counselor, and the building principal must meet and review the circumstances of the situation. All available means that could be utilized to allow the student to successfully complete the course(s) must be reviewed before permission to withdraw as WP or WF is given by the building principal and guidance counselor.

Tardiness

A student who does not have a valid excuse for being tardy to any class may be assigned a consequence by the classroom teacher.

Telephone Calls

The school's telephone may be used only with permission of staff.

Threat Assessment and Response – Team Concept

The board of education is committed to providing a safe environment for members of the school community. Students, staff and patrons are urged to immediately report any statements or behavior that makes the observer fearful or uncomfortable about the safety of the school environment.

1. Definitions

- A threat is an expression of a willful intent to physically or sexually harm someone or to damage property in a way that indicates that an individual poses a danger to the safety of school staff, students or other members of the school community.
 - The threat may be expressed/communicated behaviorally, orally, visually, in writing, electronically, or through any other means.
 - A transient threat is an expression of anger or frustration that can be quickly or easily resolved.
 - A substantive threat is an expression of serious intent to harm others which includes, but is not limited to, any threat which involves a detailed plan and means.
- A threat assessment is a fact-based process emphasizing an appraisal of observed (or reasonably-observable) behaviors to identify potentially dangerous or violent situations, to assess them and to manage/address them. Threat assessment is the process of identifying and responding to serious threats in a systematic, data-informed way.
 - The threat assessment process is distinct from student disciplinary procedures. The mere fact that the district is conducting a threat assessment does not by itself necessitate suspension, expulsion or emergency exclusion without complying with state law and board policy related governing those actions.
 - The threat assessment process is distinct from specialized instruction which a student with a disability may receive from the school district. The school district will not change a student's educational placement as that term is used in the Individuals with Disabilities in Education Act solely as part of a threat assessment.

2. Obligation to Report Threatening Statements or Behaviors.

- All staff and students must report substantive threats to a member of the administration immediately and comply with any other mandatory reporting obligations. Staff and students who are unsure whether a threat is substantive or transient should report the situation. Staff and students must make such report regardless of the nature of the relationship between the individual who initiated the threat or threatening behavior and the person(s) who were threatened or who were the focus of the threatening behavior. Staff and students must also make such reports regardless of where or when the threat was made or the threatening behavior occurred.
- **THREATS OR ASSAULTS WHICH REQUIRE IMMEDIATE INTERVENTION SHOULD BE REPORTED TO THE POLICE AT 911.**

3. Threat Assessment Team

The threat assessment team (team) shall consist of the superintendent of schools, building principal(s), and local law enforcement. It also includes the school nurse, guidance counselor, district information technology staff, and members of the

mental health profession who would be willing to work with the school. The team is responsible for investigating all reported threats to school safety, evaluating the significance of each threat, and devising an appropriate response. Not every team member need participate in every threat assessment. If the threat has been made by or is directed towards, a student with a disability, the threat assessment team must include a staff member who is knowledgeable about special education services or Section 504 of the Rehabilitation Act, as appropriate. Neither the student nor their student's family members are part of the threat assessment team.

The team is responsible for investigating all reported threats to school safety, evaluating the significance of each threat, and devising an appropriate response. The threat assessment team shall work closely with the crisis team in planning for crisis situations. The threat assessment team shall be familiar with mental health resources available to students, staff and patrons and shall collaborate with local mental health service providers as appropriate.

4. Threat Assessment Investigation and Response

When a threat is reported, the school administrator shall initiate an initial inquiry/triage and, in consultation with members of the threat assessment team, make a determination of the seriousness of the threat as expeditiously as possible. The school administrator must contact law enforcement if the administrator believes that an individual poses a clear and immediate threat of serious violence.

If there is no reasonably apparent imminent threat present or once such an imminent threat is contained, the threat assessment team will meet to evaluate and respond to the threatening behavior. The team may, but is not required to, review the following types of information:

- Review of the threatening behavior and/or communication;
- Interviews with the individuals involved including students, staff members, and family members as necessary and/or appropriate;
- Review of school and other records for any prior history or interventions with the students involved;
- Any other investigatory methods that the team determines to be reasonable and useful.

At the conclusion of the investigation, the team will determine what, if any, response to the threat is appropriate. The team is authorized to disclose the results of its investigation to law enforcement and to the target(s) of any threatened acts. The team may refer the individual of concern to the appropriate school administrator for consequences under the school's student discipline policy or, if appropriate, report the results of its investigation to the student's individualized education plan team.

Regardless of threat assessment activities, disciplinary action and referral to law enforcement will occur consistent with board policy and Nebraska law.

5. Communication with the Public about Reported Threats

The team will keep members of the school community appropriately informed about substantive threats and about the team's response to those threats. This communication may include oral announcements, written communication sent home with students, or communication through print or broadcast media. However, the team will not reveal the identity of the individual of concern or of any target(s) of threatened violence unless permitted by law.

6. Coordination with the Crisis Team After Resolution of Threat

The threat assessment team will confer with the district's crisis team after a threat has been investigated to provide the crisis team with information that the crisis team may use in assessing or revising the district's All-Hazard School Safety Plan.

Transportation Services

The district operates school buses as a convenience for students and parents. They represent a substantial investment, and students are expected to care for and respect them.

Transportation to School

Students who ride the bus to school will arrive in time for them to eat breakfast at school. Parents must contact their bus driver if a student will not ride the bus on a given day. Bus drivers endeavor to adhere to their schedule, and will wait for riders for three minutes of time so as not to jeopardize the time remaining for the rest of their schedule.

Non-resident or option enrollment students may ride the buses, but they will be picked up at a regularly scheduled district stop. The transportation director will schedule bus routes, and questions concerning them should be directed to that office.

Bus Regulations

Riding school vehicles is a privilege, not a right. The bus drivers have the same authority as teachers while transporting students. Students must comply with the following rules and all school conduct rules and directives while riding in school vehicles. In addition, students must also comply with the student code of conduct while riding in school vehicles. If misconduct is recurring, the student will not be allowed to ride the bus.

Rules of Conduct on School Vehicles:

1. Students must obey the driver promptly.
2. Students must wait in a safe place for the bus to arrive, clear of traffic and away from where the vehicle stops.
3. Students are prohibited from fighting, engaging in bullying, harassment, or horseplay.
4. Students must enter the bus without crowding or disturbing others and go directly to their assigned seats.

5. Students must remain seated and keep aisles and exits clear while the vehicle is moving.
6. Students are prohibited from throwing or passing objects on, from, or into vehicles.
7. Students may not use profane language, obscene gestures, tobacco, alcohol, drugs, or any other controlled substance on the vehicles.
8. Students may not carry weapons, look-a-like weapons, hazardous materials, nuisance items, or animals onto the vehicle.
9. Students may carry on conversations in ordinary tones, but may not be loud or boisterous and should avoid talking to the driver while the vehicle is in motion. Students must be absolutely quiet when the vehicle approaches a railroad crossing and any time the driver calls for quiet.
10. Students may not open windows without permission from the driver. Students may not dangle any item (e.g. legs, arms, backpacks) out of the windows. No items should be thrown out of the windows.
11. Students must secure any item or items that could break or produce injury if tossed about the inside of the vehicle if the vehicle were involved in an accident
12. Students must respect the rights and safety of others at all times.
13. Students must help keep the vehicle clean, sanitary, and orderly. Students must remove all personal items and trash upon exiting.
14. Students may not leave or board the vehicle at locations other than the assigned stops at home or school unless approved prior to departure by the superintendent or designee.
15. Video cameras may be placed on buses, at random, to monitor student behavior on the bus.
16. Any nuisance item can/will be confiscated by the bus driver and given to the building principal at any time.

Consequences

Drivers must promptly report all student misconduct to the administration. These reports must be written by the bus driver. Students who violate the Rules for Conduct will be referred to their building principal for discipline. Disciplinary consequences for a written student misconduct will generally result in: 1st offense - verbal warning with parental contact, 2nd offense - two days off the bus, 3rd offense - two weeks off the bus, 4th offense - two months off the bus, 5th offense - off the bus for the remainder of the school year. Behaviors which violate the student code of conduct may result in building level principals moving up the continuum quicker or possible in-school suspension, short term or long term suspension from school, and/or expulsion. School officials have discretion to impose any punishment they deem appropriate, in accordance with state and federal law and board policy.

Records

Records of vehicle misconduct will be forwarded to the appropriate building principal and will be maintained in the same manner as other student discipline records. Reports of serious misconduct may be forwarded to law enforcement.

Requests to be dropped off at a point not on the regular route will not be accommodated, unless extenuating circumstances arise and the request is approved by the transportation director or administration.

Students who are not regular route riders may not ride the bus to school or home with a friend, unless the parent of the non-route student presents written permission to the building level principal ahead of time. The written permission should include the date, the non-route rider's name, the signature of the non-rider's parent, and the place approved for drop off. Such requests may not be granted if they cause overcrowding of the vans or buses (Vans-10 riders only, plus driver).

Transportation to Activities

The school district provides transportation to students who are participating in school-sponsored events and they must ride to those events in a school vehicle. Students who wish to take private transportation home from a school event must submit a release form to the sponsor that has been signed by that student's parent.

Video Surveillance and Photographs

The Board of Education has authorized the use of video cameras on school district property to ensure the health, welfare, and safety of all staff, students and visitors, and to safeguard District facilities and equipment. Video cameras may be used in locations deemed appropriate by the Superintendent. If a video surveillance recording captures a student or other building user violating school policies or rules or local, state, or federal laws, it may be used in appropriate disciplinary proceedings against the student or other building user and may also be provided to law enforcement agencies.

Recordings Made by Parents/Guardians and Patrons. Parents/guardians and patrons may make recordings of school activities in a non-disruptive manner including things like athletic contests and school board meetings to the extent permitted by law unless otherwise lawfully restricted by the administration. Parents/guardians or patrons may not make recordings if they are volunteering or visiting school during the school day without permission of the administration or supervising staff member and subject to this policy, such as recording their child's classroom activities or recess. Violation of this policy may be grounds for exclusion from school property, loss of volunteer privileges, or other restrictions deemed appropriate by the administration.

Recordings Made by Students. This policy applies to students during the school day on school grounds; when being transported to and from school activities or programs in a vehicle owned, leased, or contracted by a school being used for a school purpose by a school employee or by his or her designee; or at a school-sponsored activity or athletic event. Students may make recordings of school activities in a non-disruptive manner including things like athletic contests and other extracurricular performances to the extent permitted by law. Students generally are not permitted to record classroom instruction or members of the school community during the school day without the express consent of a staff member or as required by the student's education plan. Student use of assistive technology that has the capacity to record and/or transmit recordings (e.g. AngelSense) must be approved by the student's education team or administration. Students remain

subject to all other district policies and rules. In no event shall recordings be taken or made in restrooms, locker rooms, or other areas where there is a reasonable expectation of privacy. Students who violate this policy may be subject to discipline up to and including expulsion.

Weather -Related School Closing

The Superintendent will occasionally announce an emergency early school dismissal, late start, or cancellation of school due to extreme heat, snow, or ice. School closings will be announced on radio station KWBE and television station KOLN/KGIN and the school districts automatic calling system. Parents should assume that school is open and a regular schedule is being followed if there is no announcement concerning the school district. Please do not call the school or individual staff members to find out whether school is being canceled. Parents who do not believe it is safe to transport their students to school may keep their students home after contacting the district office. If schools are closed due to severe weather conditions, all after-school activities will be canceled.

Withdrawal From School

Students who are moving from the district must notify the school office.

Work Permits

The building principal or other authorized school official shall be responsible for the issuance of work permits for children in accordance with state law.

SECTION TWO - ACADEMIC INFORMATION

Academic Lettering

A student in grades 9-12 is eligible for an academic letter if he/she maintains a cumulative GPA of 3.9.

Class Rank

Student class rank shall be determined by using a numeric grade point average derived from all classes graded on a numeric basis. To be included in the class ranking, a student must have received a numeric grade for each curriculum class in which he/she was enrolled.

Students who transfer into the school district will be eligible to be included in class ranking after two semesters of attendance.

Students who transfer into the school district in the middle of their senior year will be eligible to be included in class ranking, although a mid-year transfer will not displace the ranking of a student who has not transferred mid-year. In those circumstances there will be two students holding the relevant class ranking. Mid-year transfer students will not be eligible to receive senior awards unless the student has been enrolled in the district's high school for the last two semesters.

Correspondence and Online Courses

Under certain circumstances, the school district will reimburse students for the cost of tuition, textbooks, and other mandatory class materials for high school correspondence or online

courses that are not part of the school district's regular curriculum. To receive reimbursement, the student must:

- 1) pay all initial course costs when he/she registers for the course;
- 2) select a course that is not available in the school curriculum, nor is any comparable course available;
- 3) register for the course during a specific school period;
- 4) have a faculty member designated as course monitor; and
- 5) complete the course during the regular school semester(s).

The district will not be liable for the costs of such courses until the student has successfully completed the course according to the established timelines. After the student has completed the course and the district has reimbursed the student for these costs, the textbooks and class materials shall become the property of the district.

Credit for Non -Academic Work

Credit is not awarded for participation in extracurricular activities such as sports, speech, drama, etc. However, all such activities in which the student participates are noted on the student's permanent record.

Grades

Students will receive letter grades for all of their classes.

Middle and High School Grades:

A-Superior	100% - 93%
B-Above Average	92% - 86%
C-Average	85% - 78%
D-Unsatisfactory/Below Average	77% - 70
F-Failing (no credit)	69%
I-	Incomplete

A student may earn an incomplete when he or she fails to complete classroom assignments. Any student in grades 7-11 who receives an incomplete will have this grade recorded on his/her permanent record until the required work is completed to the teacher's satisfaction. If a student does not remove an incomplete by completing the minimum classroom assignments, the incomplete will be calculated as a failing grade in determining the student's grade point average.

If a student does not remove an incomplete by completing the necessary work within two weeks of the end of the grading period, the incomplete will become a failing grade that the student may make up only by taking the entire course again. The two-week period may be extended by mutual agreement of the teacher, principal, and student.

A student who receives an incomplete during his/her senior year must satisfactorily complete the classroom assignments to participate in the graduation ceremony. Seniors with

incompletes will not be dismissed from school attendance until the classroom assignments are completed to the teacher's satisfaction.

SENCAP

If a SENCAP student fails to end the semester with a "C" or better average, the student must reimburse Tri County Schools the one-half tuition cost of the class. Tri County will pay for SENCAP classes if a "C" average or better is maintained.

Academic:	
English	40 Hours

students exceeds six, students will submit and present their speech before a panel consisting of Board of Education members, administrators and/or teachers. This panel will select the three speakers for the graduation ceremony, and the decision of the panel will be final.

Senior Graduation Announcements

Senior graduation announcements are selected and ordered during the first semester. Delivery is made by the company's representative during the spring semester. Seniors should plan ahead as to the number of announcements they wish to order. All payments for announcements are made to the company representative before the merchandise is distributed to the students. Purchase of announcements is not mandatory.

Mid-Year Graduation

No student will be allowed to graduate at mid-year unless extenuating circumstances prevail. The final decision will be made by the Board of Education.

Caps and Gowns

Graduation caps and gowns are provided from class funds to graduating seniors. If class funds are insufficient, seniors will individually be assessed a fee.

Transfer Students

Transfer students must meet the minimum hour requirement for graduation both in terms of total number and specific subject areas. Substitutions may be made for deficiencies in required courses, provided that it was not possible to include the courses on the student's schedule while enrolled at this school district.

Special Education

Students who receive special education services are mainstreamed into the regular education curriculum when appropriate. The curriculum content of regular education classes may be modified to accommodate the individual needs and abilities of verified special education students. Each curriculum modification will be included on the student's Individual Education Plan by the Multidisciplinary Team and/or school staffing teams composed of special and regular education staff. Hours in special education will be counted toward a high school diploma.

Parents of students who may not qualify for their high school diploma because of academic deficiencies will be notified of this possibility by the beginning of the second semester of the student's senior year.

Homework

Classroom teachers will often assign homework. Parents who have questions about homework or concerns about class work should contact the teacher. Questions not resolved by the teacher should be referred to the administration.

Each student is expected to spend some time preparing for studies outside of school hours. The amount of time that is needed will depend upon each student, teacher, and curriculum.

Students who struggle to complete assignments should seek the help and advice of their teachers and consult with the principal and/or the guidance counselor.

Late Papers

We believe that each assignment is important to student learning, therefore students must complete all assigned work. Teachers establish individual classroom guidelines regarding their completion of assigned work.

Honor Roll

To qualify for the honor roll, students must be enrolled in eight (8) classes. In an effort to recognize a high level of achievement in a scholastic endeavor, an Honor Roll will be published each reporting period. Full-time students (7 out of 8 classes at Tri County site unless modified by administration) who receive a 3.60 grade point average will be noted on the Honor Roll list. Students that maintain a 3.20 grade point average will be listed on the Honorable Mention list. All subjects are used to compute the honor rolls. A grade of "C" must be achieved in the exception classes to be considered for the Honor Roll. Junior High

Exploratory classes are not included in computing honor roll. A student who received an incomplete will not be considered for the Honor Roll unless the incomplete is removed before the publishing of the Honor Roll.

Report Cards and Progress Reports

Report cards are sent home electronically the week following the end of the nine-week reporting period (Elementary). Mid-quarter Progress reports are also sent electronically to parents of all students at a designated time shown on the school calendar. A semester grade report will be sent home electronically to each student at the conclusion of the semester.

Semester Tests

SECTION THREE - STUDENT DISCIPLINE

General Discipline Philosophy

The school district has the authority to discipline students who behave inappropriately on the way to school, at school, during lunch, on the way home, and at all school activities (home and away or any time while on school or district property).

The school district's discipline is guided by the following principles:

1. The school district's discipline policy is intended to ensure that students take responsibility for their behavior.
2. Behavior expectations and the consequences for failing to meet those expectations will be clearly communicated to all students and their parents.
3. The severity of consequences for violating behavior expectations will generally be progressive in nature. That is, sanctions will increase with each instance of misconduct; however, each instance will be assessed on its own facts, and sanctions will be imposed based on the severity of the misconduct.
4. Parents play a vital role in supporting and reinforcing the school district's expectations of their students.
5. Behavior expectations apply to all students; consequences are enforced consistently without regard to a student's academic record or achievement.

Extracurricular activities including athletics, band, chorus, and club activities, are governed by the Student Activity Handbook. Students who are involved in extracurricular activities may face consequences related to the activity in addition to the consequences discussed in this handbook.

The school district reserves the right to refer to the appropriate non-school agency any act or conduct of its students which may constitute a crime under federal, state, county, or local law. The administration will cooperate with these agencies in their investigations.

If the child or other family member of a principal is involved in conduct which requires investigation or other action by the principal, the other building principal will conduct any necessary investigation and take any other authorized action.

Forms of School Discipline

Administrative and teaching personnel may take actions regarding student behavior that are reasonably necessary to aid the student, further school purposes, or prevent interference with the educational process. Such actions may include, but need not be limited to, counseling of students, parent conferences, referral to restorative justice practices or services, rearrangement of schedules, requirements that a student remain in school after regular hours to do additional work, restriction of extracurricular activity, or requirements that a student receive counseling, psychological evaluation, or psychiatric evaluation upon the written consent of a parent or guardian to such counseling or evaluation. The actions may also include in-school suspensions during the day. When in-school suspensions,

after-school assignments, or other disciplinary measures are assigned, the student is responsible for complying with such disciplinary measures; a failure to serve such assigned discipline as directed will serve as grounds for further discipline, up to expulsion from school. District administrators may develop building specific protocols for the imposition of student discipline.

In this section, references to "Principal" shall include building principals, the principal's designee, or other appropriate school district administrators.

Any statement, notice, recommendation, determination, or similar action specified in this section shall be effectively given at the time written evidence thereof is delivered personally to or delivered by US mail or upon receipt of certified or registered mail or upon actual knowledge by a student or his or her parent or guardian.

Any student who is suspended or expelled from school pursuant to this section may not participate in any school activity during the duration of that exclusion including adjacent school holidays and weekends. The student activity eligibility of a student who is mandatorily reassigned shall be determined on a case-by-case basis by the principal of the building to which the student is reassigned.

After School Sessions and Detentions

Teachers and administrators may require students to stay after school or to serve a detention when the student violates any of the rules contained in this handbook or violates classroom-specific conduct rules set by individual teachers.

Students who ride the bus home from school will be given a 24-hour notice of after-school time or a detention so that the parents may make plans to pick up the student the following day.

- After-school sessions are to be served in the teacher's room. A student who fails to attend an after-school session may be given a detention by the teacher or may face additional disciplinary consequences up to and including long-term suspension and/or expulsion. A student who has a conflict with an after-school session is responsible for working it out with the teacher.
- Detentions are served in the building principal's office or the detention room designated by the building principal.

In-School Suspension

The building administrator may require a student to serve in-school suspension. Students may be required to attend up to six hours per day of school-sponsored suspension a day at a designated location where they will study and participate in campus clean up. There will be zero tolerance for behavior problems from students placed in in-school suspension. Students not completing their In-School Suspension will face further disciplinary action.

Emergency Exclusion

Students may be emergency excluded from school pursuant to the board's separate policy on emergency exclusion or state law.

Short-Term Suspension

The Principal or the Principal's designee may exclude a student from school or any school function for a period of up to five school days (short-term suspension) on the following grounds:

1. Conduct constituting grounds for expulsion as hereinafter set forth; or
2. Other violations of rules and standards of behavior adopted by the board of education or the administrative or teaching staff of the school, which occur on or off school grounds, if such conduct interferes with school purposes or there is a nexus between such conduct and school.

The following process will apply to short-term suspensions:

1. The Principal shall make a reasonable investigation of the facts and circumstances. Short-term suspension shall be imposed only after a determination that the suspension is necessary to help any student, to further school purposes, or to prevent an interference with school purposes.
2. Prior to commencement of the short-term suspension, the student will be given oral or written notice of the charges against the student. The student will be advised of what he/she is accused of having done, an explanation of the evidence the authorities have, and an opportunity to explain his/her version of the facts.
3. Within 24 hours or such additional time as is reasonably necessary following the suspension, the Principal will send a written statement to the student and the student's parent or guardian, describing the student's conduct, misconduct, or violation of the rule or standard and the reasons for the action taken. An opportunity will be given to the student, and the student's parent or guardian, to have a conference with the Principal ordering the short-term suspension before or at the time the student returns to school. The Principal shall determine who, in addition to the parent or guardian, is to attend the conference.
4. Students who are short-term suspended will be given the opportunity to complete classwork, including but not limited to examinations.

Weapons and/or Firearms

Students may be disciplined for the possession of weapons and/or firearms pursuant to the board's separate policy on weapons and firearms or state law.

Long-Term Suspension

Students may be excluded by the Principal from school or any school function for a period of more than five school days but less than twenty school days (long-term suspension) for any

conduct constituting grounds for expulsion as hereinafter set forth. The process for long-term suspension is set forth below.

Pre-Kindergarten through Second Grade Students

An elementary school shall not suspend a student in pre-kindergarten through second grade unless the student brings a deadly weapon as defined in section 28-109 on school grounds, in a vehicle owned, leased, or contracted by a school being used for a school purpose or in a vehicle being driven for a school purpose by a school employee or his or her designee, or at a school-sponsored activity or athletic event. As an alternative to suspension, the school district may take any action authorized by law, including those provided in section 79-258.

Expulsion

1. **Meaning of Expulsion.** Expulsion means exclusion from attendance in all schools, grounds and activities of or within the system for a period not to exceed the remainder of the semester in which it took effect unless the misconduct occurred (a) within ten school days prior to the end of the first semester, in which case the expulsion shall remain in effect through the second semester, or (b) within ten school days prior to the end of the second semester, in which case the expulsion shall remain in effect for summer school and the first semester of the following school year, or (c) unless the expulsion is for conduct specified in these rules or in law as permitting or requiring a longer removal, in which case the expulsion shall remain in effect for the period specified therein. Such action may be modified or terminated by the school district at any time during the expulsion period.
2. **Summer Review.** Any expulsion that will remain in effect during the first semester of the following school year will be automatically scheduled for review before the beginning of the school year. The review will be conducted by the hearing officer who conducted the initial expulsion hearing, or a hearing officer appointed by the Superintendent in the event no hearing was previously held or the initial hearing officer is no longer available or willing to serve, after the hearing officer has given notice of the review to the student and the student's parent or guardian. This review shall be limited to newly discovered evidence or evidence of changes in the student's circumstances occurring since the original hearing. This review may lead to a recommendation by the hearing officer that the student be readmitted for the upcoming school year. If the school board or board of education or a committee of such board took the final action to expel the student, the student may be readmitted only by action of the board. Otherwise, the student may be readmitted by action of the Superintendent.
3. **Suspension of Enforcement of an Expulsion:** Enforcement of an expulsion action may be suspended (i.e., "stayed") for a period of not more than one full semester in addition to the balance of the semester in which the expulsion takes effect, and as a condition of such suspended action, the student may be assigned to a school, class, or program/plan and to such other consequences which the school district deems appropriate.

4. Alternative School or Pre-Expulsion Procedures. The school shall provide either an alternative school, class or educational program for expelled students or shall follow the pre-expulsion procedures outlined in Neb. Rev. Stat. 79-266.

SECTION FOUR - STUDENT ACTIVITIES HANDBOOK

Activities Handbook Introduction

Student participation in extracurricular activities has been linked to improved attendance, higher academic achievement, and greater student self confidence and self-esteem. Tri County Public Schools provides students with the opportunity to participate in a comprehensive activities program that includes athletics, fine arts, and select clubs or organizations associated with academic areas.

Although the school district believes strongly in the value of student activities, participation in the activities program is a privilege, not a right. Students must obey the rules set out in this handbook and any additional rules created by their coach or activity sponsor. This handbook is advisory and does not create a "contract" with parents, students, or staff. The administration reserves the right to make decisions and make rule revisions at any time to implement the educational program and to assure the well-being of all students. The administration is responsible for interpreting the rules contained in the handbook. If a situation or circumstance arises that is not specifically covered in this handbook, the administration will make a decision based upon all applicable school district policies, and state and federal statutes and regulations.

Please read this handbook carefully. Students and their parents are responsible for complying with all of the rules and procedures detailed in this booklet.

Parents must sign the Parent/Guardian Authorization Form before their student will be permitted to participate in the activity programs of the district.

The provisions in this handbook are subject to change at the sole discretion of the Board of Education. From time to time, you may receive updated information concerning changes in the handbook. These updates should be kept within the handbook so that it is up to date. If you have any questions regarding this handbook, please contact the Superintendent for assistance.

A participant who is unable to attend a scheduled practice, meeting, or game must contact the coach or sponsor in advance. Students who are absent from school due to illness are not required to provide the coach or sponsor with additional notification of the student's absence from practice.

A team member is not allowed to practice or compete on a day he/she is unable to be in school because of illness, or unexcused absence, unless participation is approved by the Activities Director and/or Principal. Students are to be in school by 10:00 am.

If a participant misses a scheduled contest or performance, the coach or sponsor may impose discipline up to and including suspension of the participant from the activity for the remainder of the season or length of the activity.

Closings

Unless the administration determines that it is permissible for the activity to continue as scheduled, all activities will be canceled or postponed in the event that school has been called off for inclement weather or any other reason as determined by the administration.

Colors

The Tri County Public School colors are Royal Blue, Green Bay Gold, White.

Complaint Procedure

To reduce conflicts in the school's activities program, students and/or their parents should use the district's formal complaint procedure to manage conflicts about the program. The complaint procedure is printed in the school's student handbook and may be found on the district's web site: www.tricountyschools.org

Concussion Awareness

The Nebraska Unicameral has found that concussions are one of the "most commonly reported injuries in children and adolescents who participate in sports and recreational activities and that the risk of catastrophic injury or death is significant when a concussion or brain injury is not properly evaluated and managed."

The School District will:

- a. Require all coaches and trainers to complete one of the following on-line courses on how to recognize the symptoms of a concussion or brain injury and how to seek proper medical treatment for a concussion or brain injury:
 - Heads UP Concussions in Youth Sports
 - Concussion in Sports—What You Need to Know
 - Sports Safety International
 - ConcussionWise
 - ACTive™ Athletic Concussion Training for Coaches; and
- b. On an annual basis provide concussion and brain injury information to students and their parents or guardians prior to such students initiating practice or competition. This information will include:
 1. The signs and symptoms of a concussion;
 2. The risks posed by sustaining a concussion; and
 3. The actions a student should take in response to sustaining a concussion, including the notification of his or her coaches.

A student who participates on a school athletic team must be removed from a practice or game when he/she is reasonably suspected of having sustained a concussion or brain injury

in such practice or game after observation by a coach or a licensed health care professional who is professionally affiliated with or contracted by the school. The student will not be permitted to participate in any school supervised team athletic activities involving physical exertion, including practices or games, until the student:

- a. has been evaluated by a licensed healthcare professional;
- b. has received written and signed clearance to resume participation in athletic activities from the licensed healthcare professional; and
- c. has submitted the written and signed clearance to resume participation in athletic activities to the school accompanied by written permission to resume participation from the student's parent or guardian.

If a student is reasonably suspected after observation of having sustained a concussion or brain injury and is removed from an athletic activity, the parent or guardian of the student will be notified by the school of:

- a. the date and approximate time of the injury suffered by the student,
- b. the signs and symptoms of a concussion or brain injury that were observed, and
- c. any actions taken to treat the student.

The school district will not provide for the presence of a licensed health care professional at any practice or game.

School officials shall deem the signature of an individual who represents that he/she is a licensed health care professional on a written clearance to resume participation that is provided to the school to be conclusive and reliable evidence that the individual who signed the clearance is a licensed healthcare professional. The school will not take any additional or independent steps to verify the individual's qualifications.

Dances

School dances are part of the district's extracurricular activity program. Students who wish to participate in school dances must comply with the activity code. Students may be prohibited from participating in school dances as a consequence for violating school rules or these activity rules.

Junior High Dances

Junior high (Grades 7-8) dances are restricted to students currently enrolled in the junior high school and will be sponsored by junior high teachers and parents. Any organization wishing to sponsor a junior high dance must obtain permission from the principal regarding date and times. Each dance must be sponsored by at least two faculty members. Once admitted to the dance, students must remain until the close of the dance. Students who leave the dance will not be readmitted. Students who are academically ineligible will not be allowed to attend school dances.

High School Dances

All high school dances are restricted to Tri County High School students and their guests. Any organization wishing to sponsor a dance must obtain permission from the principal regarding date and times. Each dance must be sponsored by at least two faculty members. Once admitted to the dance, students must remain until the close of the dance. Students who leave the dance will not be readmitted. Students who are academically ineligible will not be allowed to attend school dances.

Homecoming and Prom

The Homecoming dance is open to students, grades 9-12 and guests of Tri County High School. Guests must not be older than 19 years of age and must be approved by administration if not a student of Tri County.

The Junior/Senior Prom is open to students and guests of the Tri County High School junior and senior classes. Guests must be 10th grade through 19 years of age and/or approved by administration to be eligible to attend Tri County prom. Guests must follow all rules that the students must follow. Each student is responsible for his/her guest's conduct. Appropriate attire is required for these dances.

Electronic Communication

The school board supports the use of technology by coaches, extracurricular sponsors, and other staff members to communicate with students for legitimate educational, extracurricular, and other school related purposes. However, electronic communication between students and teachers, sponsors, and coaches shall be appropriate at all times and shall not violate any law, district policies, or the Regulations and Standards for Professional Practices Criteria, commonly known as Rule 27 of the Nebraska Department of Education ("Rule 27"). Please see the Social Media Policy For School District Employees for further explanation.

Equipment

Each participant in the athletic portion of the activities program will be issued a locker to store his/her personal belongings and school equipment that has been checked out. Students should secure their athletic lockers with combination locks.

School-owned clothing or equipment that is checked out to individual students remains the property of the school. The clothing or equipment is not to be used or worn by the student except for the intended use. Each piece of equipment or clothing is to be returned to the instructor or coach when the season or the use for such clothing or equipment is over. Each participant is responsible for all equipment checked out to him/her. Students will be assessed the replacement cost for school equipment that has been checked out to him/her and is lost or stolen.

Fundraising

All school-sponsored fundraising activities must be approved by a member of the school district administration. Fundraising for any activity must comply with the district's policies, including applicable provisions specifically pertaining to Booster Clubs and PTOs for

non-school-sponsored fundraising. Use of the school mascot shall not be permitted unless approved by the superintendent or his/her designee.

Individual Training Rules and Rules of Conduct

Head coaches or sponsors may develop additional training rules or rules of conduct for their activity. Students are responsible for knowing these rules and complying with them.

Initiations and Hazing

Initiations and hazing by members of classes, clubs, athletic teams, or any other organization affiliated with the district are prohibited except as otherwise permitted by this policy. Any student engaging in hazing or non approved initiations is subject to discipline as permitted by policy and law.

Initiations are defined as any ritualistic expectations, requirements, or activities placed upon new members of a school organization for the purpose of admission into the organization, even if those activities do not rise to the level of “hazing” as defined below. Initiations are prohibited except by permission of the superintendent.

Hazing is defined as any activity by which a person intentionally or recklessly endangers the physical or mental health or safety of an individual for the purpose of initiation into, admission into, affiliation with, or continued membership in any school organization. Hazing activities include, but are not limited to, whipping, beating, branding, an act of sexual penetration, an exposure of the genitals of the body done with the intent to affront or alarm any person, a lewd fondling or caressing of the body of another person, forced and prolonged calisthenics, prolonged exposure to the elements, forced consumption of any food, liquor, beverage, drug, or harmful substance not generally intended for human consumption, prolonged sleep deprivation, or any brutal treatment or the performance of any unlawful act that endangers the physical or mental health or safety of any person.

Injuries

Participants who suffer any type of injury while involved in extracurricular activities must notify the coach or sponsor immediately. The coach or sponsor will then evaluate the injury and, if necessary, notify the participant’s parents or seek immediate medical treatment.

If at any time during participation a doctor removes an athlete from participation because of an illness or injury, the athlete must have a written release from a doctor before participating again. The written release must be given to the coach or sponsor of the activity.

Note: The release requirement will be satisfied if the initial doctor’s order specifies the duration of the student's restriction from participation and/or competition. Also see Concussion Awareness above.

Insurance

The school district does not provide medical or other insurance coverage for students who participate in athletic contests or other activities. It is the parents’ responsibility to provide

adequate insurance to cover any medical expenses that may be incurred while the student is participating in athletics or other activities.

The school district makes an accident insurance plan available for purchase by participants and their families through an authorized insurance agent. Information about policies which families may purchase will be available prior to each sports season and at fall registration.

Lettering / Award Requirements

The following guidelines will be used in determining students' eligibility for lettering:

BAND:

A student must accumulate 100 points throughout the school year. At the beginning of the school year students will receive detailed information explaining the point system for lettering. If there are extenuating circumstances which have prohibited a student from accumulating necessary letter points, the instructor may use his direction in awarding a letter.

BASKETBALL: (Boys/Girls)

Athlete must play in an average of one quarter per varsity game, (exception – tournament games) and successfully complete the season.

CROSS COUNTRY: (Boys/Girls)

Athlete must 1) medal in a meet with four or more teams; 2) be a member of the varsity (top five) when the team wins a meet with four or more teams; 3) be a member of the varsity for 75 percent of the meets; or 4) at the coach's discretion (e.g. a senior who has not been lettered but has been a member of the team in good standing for two or more years).

FOOTBALL:

Must play in half of the quarters of the varsity games and complete the season. Example: Nine games equal thirty-six quarters, therefore the athlete must have eighteen quarters.

GOLF:

Athletes must qualify for over half of the golf matches and complete the season.

TRACK: (Boys/Girls)

Athletes must earn an average of one point per meet toward team score or meet a time or distance in one event established by the coaching staff. Athlete must complete the season.

VOLLEYBALL:

Athlete must play in at least half of the sets and complete the season.

WRESTLING:

Athlete must acquire a total of 25 Team Varsity Scheduled points during the course of the season, or place in either Conference or District Meet and successfully complete the season. Varsity wrestlers also get a point for every scheduled competition.

In Football, Volleyball, Golf, Basketball and Track ONLY VARSITY competition is counted toward a letter award. Wrestling counts varsity and/or reserve competition toward a letter award.

Occasionally a situation will arise in which the coach will have to determine the merit of the individual case. Rigid regulations serve a useful purpose only when such regulations do not harm an individual in the unusual situation. Such unusual situations should be handled by the coach. In the final analysis, if participation is the requirement, the degree of participation as well as the time, should be a factor in determining the award, along with injuries and illness.

Student Manager:

A student manager may letter in a sport in the following ways:

1. Be a three year manager for one sport.
2. Manage in two consecutive sporting seasons (i.e. football, basketball) for two seasons.

Senior Athlete of the Year

The Annual Athlete of the Year will be announced following the state track meet. Student/Athletes are still in season and can accumulate points towards earning the Athlete of the Year Award. The top finalists will be announced at the Athletic Awards Night.

Therefore, at the Annual Athletic Night finalists will be announced for both potential female and male award winners. The announcement of the athlete of the year will come following the Nebraska State Track & Field Meet. This will ensure all points are tabulated and there is no possible situation where the athlete(s) may lose points due to a school violation which has been outlined in our student handbook.

In awarding the athletes if there is a point differential of only three points between two athletes (or more), the award will go to all said athletes. However, if the point differential is greater than three points and the potential for any of the said athletes acquiring points during the track season, then all said athletes will be announced as finalists at the Athletic Awards Night. Then the final determination will be made at the end of the spring season when all points have been tabulated.

This will be the criteria to be followed when selecting the Senior Athlete of the Year. These will be Tri County accomplishments only and student managers' letters and participation will NOT count in the point totals. If the student/athlete violates the student code of conduct any time during the school year, beginning of fall practice through state track (Please refer to the Tri County Student Handbook), the athlete will forfeit all of their previous points.

The number of sports the athlete participated in x 2.

The number of letters earned by the athlete x 3.

- First team All-State 8 points; either major newspaper (Omaha, Lincoln)
- Second team All-State 4 points; either major newspaper (Omaha, Lincoln)
- All District first team 2 points

- First team All-State 8 points; either major newspaper (Omaha, Lincoln)

Mascot

The official emblem for boys' and girls' athletic teams is the Trojan logo that has been approved by the board of education. The mascot cannot be used for non-school-sponsored purposes unless approved by the superintendent or his/her designee.

Practices

The individual head coach or sponsor, in cooperation with the high school principal, will schedule all starting times of practices. All participants are expected to be ready at the time set by the coach or sponsor.

To be eligible to practice, a participant must satisfy the following requirements: 1) Submit to the coach or sponsor a signed physical form and Activities Code that verifies that a physical examination has been completed and that the student and parent(s) understand the school's position regarding the use or possession of alcohol, tobacco, and other related drugs. 2) Furnish the high school principal with proof of insurance. You can find these forms and more information on the Tri County website. www.tricountyschools.org

Secret Organizations

Secret organizations are prohibited. School officials shall not allow any person or representative of any such organization to enter upon school grounds or school buildings for the purpose of rushing or soliciting students to participate in any secret fraternity, society, or association.

Student Manager, Helpers, or Activity Aides

Students wishing to serve as student volunteers for extracurricular activities must gain the permission of the activity coach or sponsor. Student volunteers must comply with all of the rules and procedures contained in this handbook.

Sunday and Wednesday Night Activities

In order to provide students sufficient time away from school for family related activities, the school will endeavor not to schedule activities on Wednesday evenings or on Sundays. Practices will be organized so that all participants are showered, dressed, and/or leave the facilities by 6:00 p.m. on Wednesday nights. An exception to this guideline would be when a team, a group of students, or an individual may be required to participate in an activity sponsored by the conference, district, or state on a Wednesday night.

The school does not allow Sunday practice sessions, except when a varsity team, a group of students, or individual is scheduled to compete or perform on a Monday. Practices scheduled for a Sunday must have the prior approval of the activities director or building principal.

Transportation

All participants are expected to ride to and from away activities by means of approved school transportation.

A participant may ride home with his or her parent/guardian only if the parent/guardian personally contacts the sponsor at the activity. A participant may ride home with an adult if the participant's parent/guardian has personally contacted the principal or athletic director prior to the activity and the adult personally contacts the sponsor at the activity prior to leaving with the student. Parents are discouraged from requesting to take their children home after an away contest or performance. Travel to and from an event provides time for the students to further develop a strong team concept.

Weight Room

The weight room has been developed to help each athlete, student, or adult in the community maintain a level of physical fitness. No one may use the weight room or equipment without proper supervision. The school will develop a schedule for use of the weight room by athletes during the school year and during the summer months.

The weight room is a high demand area within the school facilities. The following guidelines will help determine the priorities in reference to use if more than one group desires to use the facility at the same time:

1. Physical education instruction
2. By the team sports, which are in season
3. Conditioning programs for athletes not currently out for a sport
4. Summer conditioning programs
5. Adult education

CODE OF CONDUCT

All students associated with Tri County Public Schools and participating in extracurricular or school sponsored activities (including all NSAA activities) are required to avoid conduct that is detrimental to the integrity of, and public confidence in, the school. Rules promoting lawful, ethical, and responsible conduct serve the interests of all people associated with the school. Illegal and irresponsible conduct puts people at risk, tarnishes the reputation of the offender and everyone else associated with the school, and undermines the public support and respect of the school district.

Standard of Conduct

Participation in school-sponsored or extracurricular activities is a privilege and not a right. Participants must follow board policy, this code, and all the training rules and rules of conduct of the coaches and/or activity sponsors. Students participating in school-sponsored or extracurricular activities are held to a high standard. Students are expected to conduct themselves in a way that is lawful, responsible, promotes the values upon which the school is based, and that brings credit to themselves and the school. Students who fail to live up to the required standard of conduct are guilty of detrimental conduct and subject to discipline under all school policies, the general student code of conduct, and these Activity Participation Rules.

Coach and Sponsor Rules

Coaches and/or activity sponsors shall establish training rules or rules of conduct for participation in or attendance at the activity or event. General training rules or rules of conduct shall be established prior to the activity or event. This Code shall control in the event that there is a conflict with coach or sponsor rules.

Prohibited Conduct

Students in school-sponsored and/or extracurricular activities may not engage in the following conduct:

1. Receipt of a criminal citation by law enforcement for any reason.
2. Conviction of a crime in adult court or the adjudication of a criminal charge in juvenile court.
3. Any behavior that is illegal under the laws of Nebraska or the United States of America regardless of whether it results in a criminal charge or conviction.

4. Any conduct that substantially interferes with the educational process or disrupts the activity or event.
5. Possession, consumption, use, distribution, or being under the influence of alcohol, illicit drugs, tobacco, controlled substances, or any lookalike or imitations thereof; or being in the presence of alcohol, illicit drugs, controlled substances, or any lookalike or imitations thereof that are being possessed, consumed, used, or distributed by any person under twenty-one (21) years of age without parental supervision. "Lookalike or imitations" means substances such as K2 and products like electronic nicotine delivery systems, vapor pens, etc. (Note: the term "under the influence" for school purposes has a less strict meaning than it does under criminal law; for school purposes, the term means any level of impairment and includes even the odor of alcohol on the breath or person of a student; also, it includes being impaired by reason of the use or abuse of any substance for the purpose of inducing a condition of intoxication, stupefaction, depression, giddiness, paralysis, inebriation, excitement, or irrational behavior, or in any manner changing, distorting, or disturbing the auditory, visual, mental, or nervous processes).
6. Engaging in initiations, defined as any ritualistic expectations, requirements, or activities placed upon new members of a school organization for the purpose of admission into the organization, even if those activities do not rise to the level of "hazing" as defined below. Initiations are prohibited except by permission of the superintendent.
7. Engaging in hazing as defined by state law and this policy. Hazing is defined as any activity by which a person intentionally or recklessly endangers the physical or mental health or safety of an individual for the purpose of initiation into, admission into, affiliation with, or continued membership in any school organization. Under state criminal law, hazing activities include, but are not limited to, whipping, beating, branding, an act of sexual penetration, an exposure of the genitals of the body done with the intent to affront or alarm any person, a lewd fondling or caressing of the body of another person, forced and prolonged calisthenics, prolonged exposure to the elements, forced consumption of any food, liquor, beverage, drug, or harmful substance not generally intended for human consumption, prolonged sleep deprivation, or any brutal treatment or the performance of any unlawful act that endangers the physical or mental health or safety of any person. For purposes of school rules, hazing also includes any activity expected of someone joining a group, team, or activity that humiliates, degrades or risks emotional and/or physical harm, regardless of the person's willingness to participate; personal servitude; restrictions on personal hygiene; yelling, swearing and insulting new members/newcomers; being forced to wear embarrassing or humiliating attire in public; consumption of vile substances or smearing of such on one's skin; binge drinking and drinking games; sexual simulation and sexual assault.
8. Bullying which shall include cyber-bullying, defined as the use of the internet, including but not limited to social networking sites such as Facebook, cell phones or other devices to send, post, or text message images and material intended to hurt or embarrass another person. This may include, but is not limited to; continuing to send e-mail to someone who has said they want no further contact with the sender; sending or posting threats, sexual remarks, or pejorative labels (i.e., hate speech);

- ganging up on victims by making them the subject of ridicule in forums; posting false statements as fact intended to humiliate the victim; disclosure of personal data, such as the victim's real name, address, or school at websites or forums; posing as the identity of the victim for the purpose of publishing material in their name that defames or ridicules them; sending threatening and harassing text, instant messages, or emails to the victims; and posting or sending rumors or gossip to instigate others to dislike and gang up on the target.
9. Using any Internet or social networking websites to make statements, post pictures, or take any other actions that are indecent, vulgar, lewd, slanderous, abusive, threatening, harassing, or terrorizing.
 10. Violating any school policy, handbook provision, or a coach's or activity sponsor's training rules or rules of conduct.
 11. Dressing or grooming in a manner which is (A) dangerous to the student's health and safety or a danger to the health and safety of others, (B) lewd, indecent, vulgar, or plainly offensive, (C) materially and substantially disruptive to the work and discipline of the school or an extracurricular activity, (D) interpreted to advocate the use of illegal drugs or other substances by a reasonable observer.
 12. Failing to report for an activity at the beginning of a season unless excused by the coach or activity sponsor.
 13. Failing to attend scheduled practices and meetings unless excused by the coach or activity sponsor.

Such conduct is prohibited during the school year, regardless of whether it occurs on-campus or off-campus. School year means the period commencing on the first day of fall sports practice through the last day of spring sports practice, events, or attendance at school for a given school year.

Discipline

Students who violate any provision of these Activity Participation Rules may be subject to discipline up to and including expulsion from extracurricular activities and school sponsored events (including but not limited to graduation ceremony and related activities). These disciplinary consequences and this Activity Code of Conduct are in addition to and do not prejudice, diminish, impede, or reduce any discipline that is authorized by the Nebraska Student Discipline Act, NEB. REV. STAT. §§ 79-254 to 79294, Board Policy, or the Student Handbook. Disciplinary action may include a probationary period and conditions that must be satisfied prior to or following reinstatement. Administrators and coaches will take the following into consideration when making disciplinary decisions:

1. Any prior or additional misconduct;
2. The nature and seriousness of the offense;
3. The motivation for the offense;
4. The amount of violence involved;
5. The student's demeanor and attitude regarding the violation;
6. The actual, threatened, or potential risk to the student and others due to the student's behavior;

7. Whether the student has compensated or will compensate the victim in the event of property damage or personal injury;
8. Whether the circumstances of the violation are likely to recur;
9. The student's willingness to participate in evaluations, counseling, or other programs;
10. Any mitigating factors;
11. Any other relevant factors.

If suspended, the student must continue to participate in practices and conditioning during the suspension if required by the coach or activity sponsor. The failure to comply with the practice and conditioning requirement will make the student ineligible for reinstatement to the activity.

Evaluation, Counseling, and Treatment

Apart from any other disciplinary procedures, students who violate any provision of these rules may be required to undergo a formal clinical evaluation at the administration's discretion. Based upon the results of that evaluation, the student may be encouraged or required to participate in an education program, counseling, or other treatment deemed appropriate by the evaluating professional.

Reporting of Incident

Students shall report any violation of these rules to the coach, principal, or superintendent no later than 30 minutes after the beginning of the next school day after the violation has occurred. Failure to report an incident will constitute a violation of these rules and will be taken into consideration in making disciplinary determinations under this policy.

Discipline Procedures

Prior to any disciplinary action under this activities code, the following procedures shall be followed:

As used in this "Discipline Procedures" section, "Investigator" means the coach or activity sponsor of the team or activity in which the student is participating, or any teacher, school official, or school representative whom the Principal or the Superintendent has authorized to perform the duties and responsibilities of "Investigator" as described below.

1. The Investigator shall make an investigation of alleged violation and provide an opportunity for the student to present his or her version of the facts surrounding the alleged violation.
2. The Investigator shall consider all information obtained as a result of the investigation, including information obtained from the student, and shall render a decision regarding disciplinary action. Within a reasonable period of time of the Investigator's decision, the student and his/her parent or guardian shall be given written notice of the disciplinary action taken by the Investigator.
3. If the child or other family member of a principal is involved in conduct which requires investigation or other action by the principal, the other building principal will conduct any necessary investigation and take any other authorized action.

Review of Investigator's Decision

A student or the student's parents may, within five (5) school days of the notice of disciplinary action from the Investigator, notify the superintendent in writing of their request for a review of the Investigator's determination. The superintendent or his or her designee shall review the situation and render a decision within three (3) school days from the date of the request for review. The superintendent's decision shall be in writing and shall be final.

Misrepresentations

Any misrepresentation of fact by a student regarding any alleged violation of these rules shall be considered a separate violation of these rules, and the student shall be subject to additional disciplinary action.

Questions

Any parent or student who has questions about board policy, this code, training rules, or rules of conduct of coaches or activity sponsors, or their interpretation or application shall consult with the activities director and/or the superintendent.

Assistance

Students are encouraged to consult with their coach, an administrator, a counselor, or a teacher to obtain access to educational, counseling, and other programs and resources that may be available to help avoid misconduct that may result in discipline under this policy.

CONSEQUENCES FOR PROHIBITED CONDUCT

Code of Conduct Expectations

At Tri County Schools it is the expectation of our participants to acknowledge and understand the commitment it takes to be involved in extracurricular activities. As participants in extracurricular activities, our students must understand that they are held to a higher standard and therefore take the responsibility to meet these expectations set forth by Tri County Schools. The following will be the consequences for any drug/alcohol/moral/social media violations:

- **First Offense:** Student will receive a 28 calendar day suspension from all school-related activities. However, if the student would self-report to the high school principal within 24-hours of the infraction (regardless of the day of the week), the self-reporting student would assure themselves a lesser consequence, (21 days versus 28 days) because the student has taken the responsibility to acknowledge a mistake has been made. Any officer positions held will automatically be terminated upon the first offense. Consequences for National Honor Society will be determined by a separate committee.
- **Second Offense:** A student who violates the Code of Conduct during the calendar school year, will receive an automatic 42-day school related activity suspension. Self-reporting has no bearing on the consequence outcome; however, self-reporting is still encouraged.

- Third Offense: Student will be suspended from school-related activities for the remainder of the school year.

If suspended, the student must continue to participate in practices and conditioning during the suspension if required by the coach or activity sponsor. The failure to comply with the practice and conditioning requirement will make the student ineligible for reinstatement to the activity..

Reprimands

1. Awards:
 - (a) A student will not receive a letter award if the violation occurs during that actual season.
 - (b) A student will not be nominated or eligible for any awards during the season for which the violation occurs. Awards outside of school control would not be affected.
2. Any coach or sponsor may require additional standards which are applicable to a certain sport or activity, provided the standards are approved by the administration and the Board of Education, and are communicated in written form to the student and parents before the particular sport/activity season begins.
3. Students will be allowed to practice for this activity during this suspension time unless unusual circumstances prevail.
4. Students deemed ineligible due to infraction in the alcohol/drug/academic eligibility policy will be ineligible for all activities during or after the general school day (this includes field trips). Band and vocal music concerts will apply to this rule. No grade deduction will be enforced due to a student's ineligibility status.
5. Students will be ineligible for all activities during in-school and out-of school suspensions. This includes all activities as a participant and/or spectator.

A PARENT'S GUIDE TO CONCUSSIONS

What is a concussion?

A concussion is a brain injury that results in a temporary disruption of normal brain function. A concussion occurs when the brain is violently rocked back and forth or twisted inside the skull as a result of a blow to the head or body. An athlete does not have to lose consciousness ("knocked-out") to suffer a concussion.

Concussion facts:

- It is estimated that more than 140,000 high school athletes across the United States suffer a concussion each year. (Data from NFHS Injury Surveillance System).
- Concussions occur most frequently in football, but girl's lacrosse, girls' soccer, boys' lacrosse, wrestling, and girls' basketball follow closely behind. All athletes are at risk.
- A concussion is a traumatic injury to the brain.
- Concussion symptoms may last from a few days to several months.
- Concussions can cause symptoms that interfere with school, work, and social life.
- Athletes who have symptoms from a concussion should not return to sports because they are still at risk for prolonging symptoms and further injury.

- A concussion may cause multiple symptoms. Many symptoms appear immediately after the injury, while others may develop over the next several days or weeks. The symptoms may be subtle and are often difficult to fully recognize.

WHAT ARE THE SIGNS AND SYMPTOMS OF A CONCUSSION?

Signs Observed by Parents or Guardians

- Appears dazed or stunned
- Is confused about assignment or position
- Forgets an instruction
- Is unsure of game, score, or opponent
- Moves clumsily
- Answers questions slowly
- Loses consciousness (even briefly)
- Shows behavior or personality changes
- Can't recall events prior to hit or fall

- Can't recall events after hit or fall
- ### Symptoms Reported by Athlete
- Headache or "pressure" in head
 - Nausea or vomiting
 - Balance problems or dizziness
 - Double or blurry vision
 - Sensitivity to light or noise
 - Feeling sluggish, hazy, foggy, or groggy
 - Concentration or memory problems
 - Confusion
 - Does not "feel right"

What should I Do If I Think My Child Has Had A Concussion?

An athlete who is suspected of having a concussion must be removed from play immediately, whether it is in a game or practice. Continuing to participate in physical activity after a concussion can lead to worsening concussion symptoms, increased risk of further injury, and even death. Parents and coaches are not expected to be able to "diagnose" a concussion, as that is the job of a medical professional. However, they must be aware of the signs and symptoms of a concussion and if they are suspicious, the child must stop playing:

When In Doubt - Sit Them Out!

Every athlete who sustains a concussion needs to be evaluated by a health care professional who is familiar with sports concussions. Parents should call their child's physician, explain what has happened, and follow the physician's instructions. A child who is vomiting, has a severe headache, or has difficulty staying awake or answering simple questions should be taken to the parent's doctor or emergency room immediately.

When May An Athlete Return To Play Following A Concussion?

No athlete who has suffered a concussion should return to play or practice the same day. Previously, athletes were allowed to return to play if their symptoms resolved within 15 minutes of the injury. Studies have shown that the young brain does not recover quickly enough for an athlete to return to activity in such a short time.

Concerns about athletes who return to play too quickly have led state lawmakers in Oregon and Washington to pass laws stating that no athlete shall return to play on the day he or she suffered a concussion and the athlete must be cleared by an appropriate health care professional before he or she are allowed to return to play in games or practices. The laws also mandate that coaches receive education on recognizing the signs and symptoms of concussion.

Once an athlete is free of symptoms of a concussion and is cleared to return to play by a healthcare professional knowledgeable in the care of sports concussions, he or she should proceed with activity in a step-wise fashion to allow the brain to readjust to exertion. On average, the athlete will complete a new step each day. The return-to-play schedule should proceed as below following medical clearance:

Step 1:

Light exercise, including walking or riding an exercise bike. No weight-lifting.

Step 2:

Running in the gym or on the field. No helmet or other equipment.

Step 3:

Non-contact training drills in full equipment. Weight training can begin.

Step 4:

Full contact practice or training.

Step 5:

Game play.

If symptoms occur at any step, the athlete should cease activity and be reevaluated by a healthcare provider.

How Can A Concussion Affect Schoolwork?

Following a concussion, many athletes will have difficulty in school. These problems may last from days to months and often involve difficulties with short and long-term memory, concentration, and organization.

In many cases, it is best to reduce the athlete's class load after the injury. This may include staying home from school for a few days, followed by a lightened schedule for a few days or perhaps a longer period of time if needed. Decreasing the stress on the brain soon after a concussion may reduce symptoms and shorten the recovery period.

What Can You Do?

- Both you and your child should learn to recognize the "Signs and Symptoms" of a concussion as listed above.
- Emphasize to administrators, coaches, teachers, and other parents your concerns and expectations about concussion and safe play.
- Teach your child to tell the coaching staff if he or she experiences such symptoms.
- Teach your child to tell the coaching staff if he or she suspects that a teammate has a concussion.
- Monitor sports equipment for safety, fit, and maintenance.
- Ask teachers to monitor any decrease in grades or changes in behavior that could indicate concussion.
- Report concussions that occurred during the school year to appropriate school staff. This will help in monitoring injured athletes as they move to the next season's sports.

Other Frequently Asked Questions:

Why is it so important that an athlete not return to play until they have completely recovered from a concussion?

An athlete who has not fully recovered from an initial concussion is very vulnerable to recurrent, cumulative, and even catastrophic consequences of a second concussive injury. Such difficulties are prevented if the athlete is allowed time to recover from the concussion and return-to-play decisions are carefully made. No athlete should return to sport or other at-risk participation when symptoms of a concussion are present and recovery is ongoing.

Is a “CT scan” or MRI needed to diagnose a concussion?

Diagnostic testing which includes CT (“CAT”) and MRI scans are rarely needed following a concussion. While these are helpful in identifying life threatening brain injuries (e.g., skull fracture, bleeding, swelling), they are not normally used, even by athletes who have sustained severe concussions. A concussion is diagnosed based upon the athlete’s story of the injury and the health care provider’s physical examination.

What is the best treatment to help my child recover more quickly from a concussion?

The best treatment for a concussion is rest. There are no medications that can speed the recovery from a concussion. Exposure to loud noises, bright lights, computers, video games, television, and phones (including text messaging) may exacerbate the symptoms of a concussion. You should allow your child to rest as much as possible in the days following a concussion. As the symptoms decrease, you may allow increased use of computers, phone, video games, etc., but the access must be reduced if symptoms worsen.

How long do the symptoms of a concussion usually last?

The symptoms of a concussion will usually go away within one week of the initial injury. You should anticipate that your child will likely be out of sports for about two weeks following a concussion. However, in some cases, symptoms may last for several weeks or even months. Symptoms such as headache, memory problems, poor concentration, and mood changes can interfere with school, work, and social interactions. The potential for such long-term symptoms indicates the need for careful management of all concussions.

How many concussions can an athlete have before he or she should stop playing sports?

There is no “magic number” of concussions that determine when an athlete should give up playing contact or collision sports. The circumstances surrounding each individual injury, such as the way the injury happened and length of symptoms following the concussion are very important and must be considered when assessing the athlete’s risk for further and potentially more serious concussions. The decision to “retire” from sports is a decision best reached following a complete evaluation by your child’s primary care provider and consultation with a physician or neuropsychologist who specializes in treating sports concussion.

I’ve read recently that concussions may cause long-term brain damage in professional football players. Is this a risk for high school athletes who have had a concussion?

The issue of “chronic encephalopathy” in several former NFL players has received a great deal of media attention lately. Very little is known about what may be causing

dramatic abnormalities in the brains of these unfortunate retired football players. At this time, we have very little knowledge of the long-term effects of concussions that happen during high school athletics.

In the cases of the retired NFL players, it appears that most had long careers in the NFL after playing in high school and college. In most cases, they played football for over 20 years and suffered multiple concussions in addition to hundreds of other blows to their heads. Alcohol and steroid use may also be contributing factors in some cases.

Obviously, the average high school athlete does not come close to suffering the total number or sheer force of head trauma seen by professional football players. However, the fact that we know very little about the long-term effects of concussions in young athletes is further reason to carefully manage each concussion.

School Wellness Policy - Policy 5051

The school district is committed to providing a school environment that enhances learning and the development of lifelong wellness. The goals outlined in this policy were determined and selected after reviewing and considering evidence-based strategies.*

1. Goals for Nutrition Promotion and Education

- a. The district will promote healthy food and beverage choices for all students, as well as encourage participation in school meal programs by such methods as implementing evidence-based healthy food promotion techniques through the school meal programs and promoting foods and beverages that meet or exceed the USDA Smart Snacks in School nutrition standards.
- b. The health curriculum will include information on good nutrition and healthy living habits.
- c. Teachers will incorporate information on nutrition and wellness into the classroom curriculum as appropriate.
- d. The district will collaborate with public and private entities to promote student wellness.
- e. Water will be made available to students throughout the school day.

2. Goals for Physical Activity

- a. The school district's curriculums shall include instruction on physical activity and habits for healthy living.
- b. Students will be encouraged to engage in physical activities throughout the school day and will be provided with opportunities to do so.
- c. The district encourages parents and guardians to support their children's participation in physical activity, to be physically active role models, and to include physical activity in family events.

3. Goals for Other School-Based Activities Designed to Promote Student Wellness

- a. The district will participate in state and federal child nutrition programs as appropriate.
- b. The district will provide professional development, support, and resources for staff about student wellness.
- c. Students will be provided sufficient time in which to eat school-provided meals.
- d. The district's lunchrooms will be attractive and well-lighted.
- e. The district will allow other health-related entities to use school facilities for activities such as health clinics and screenings so long as the activities meet the district's requirements and criteria for the use of facilities.
- f. The district may partner with other individuals or entities in the community to support the implementation of this policy.
- g. The district will strive to provide physical activity breaks for all students, recess for elementary students, and before and after school activities, as well as encourage students to use active transport (walking, biking, etc.)
- h. The district will use evidence-based strategies to develop, structure, and support student wellness.

4. Standards and Nutrition Guidelines for All Foods and Beverages Sold to Students on the School Campus and During the School Day

- a. The district will ensure that student access to foods and beverages meet federal, state and local laws and guidelines including, but not limited to:
 - i. USDA National School Lunch and School Breakfast nutrition standards
 - ii. USDA Smart Snacks in School nutrition standards.
- b. The district will offer students a variety of age-appropriate, healthy food and beverage selections with plenty of fruits, vegetables, and whole grains aimed at

meeting the nutrition needs of students within their calorie requirements in order to promote student health and reduce childhood obesity.

5. Standards for All Foods and Beverages Provided, But Not Sold to Students During the School Day

The district may provide a list of healthy party ideas or food and beverage alternatives to parents, teachers, and students for classroom parties, rewards and incentives, or classroom snacks. The district discourages the use of food and beverages as a reward or incentive for performance or behavior.

6. Food and Beverage Marketing

Marketing and advertising is only allowed on school grounds or at school activities for foods and beverages that meet or exceed the USDA Smart Snacks in School nutrition standards, except as follows:

- a. This requirement does not apply to marketing that occurs at events outside of school hours such as after school sporting or any other events, including school fundraising events.
- b. The district will not immediately replace menu boards, coolers, tray liners, beverage cups, and other food service equipment with depictions of noncompliant products or logos to comply with the new USDA Smart Snacks in Schools nutrition requirements. All previously purchased products will be used, and all existing contracts honored.
- c. All equipment that currently displays noncompliant marketing materials will not be removed or replaced (e.g., a score board with a Coca-Cola logo). However, as the district reviews and considers new contracts, and as scoreboards or other such durable equipment are replaced or updated over time, any products that are marketed and advertised will meet or exceed the USDA Smart Snacks in School nutrition standards

7. Public Participation

Parents, students, representatives of the school food authority, teachers, school health professionals, board members, school administrators, and members of the general public shall be allowed to provide their input to the school district during the wellness policy adoption and review process.

8. Competitive Foods (Includes Food and Beverages Sold in Vending Machines, School Stores, Fundraisers or in Competition with the National School Lunch and Breakfast Programs)

- a. Except as otherwise allowed by the Nebraska Department of Education (NDE), all foods and beverages sold during the school day as part of a fundraiser or for any other purpose in competition with the National School Lunch and Breakfast Programs must meet the nutrition standards of those programs.
- b. Fundraiser food or beverages are NOT exempt from the USDA Smart Snacks in School nutrition standards. Therefore, if food is sold as a fundraiser:
 - (1) It shall not be sold in competition with school meals in the food service area during the meal service.
 - (2) It shall not be sold or otherwise made available to students anywhere on school premises during the period beginning one half hour prior to the serving period for breakfast and/or lunch and lasting until one half hour after the serving of breakfast and/or lunch.
 - (3) The sale of food items during the school day shall meet the USDA Smart Snacks in School nutrition requirements
 - (4) This restriction does not apply to food sold during non-school hours, weekends, and off-campus fundraising events such as concessions during after-school sporting events, school plays or concerts; or to bulk food items that are sold for consumption at home. (Ex: frozen pizzas, cookie dough tubs, etc.)

9. Triennial Assessment

The school board shall assess and review this policy at least every three years to determine:

- a. Compliance with this policy;
- b. How this policy compares to NDE model wellness policies;
- c. Progress made in attaining the goals of this policy.

The school board will update or modify this policy as appropriate.

10. Public Notice

In addition to identifying the topic on its meeting agenda as required by the Open Meetings Act, the school district will provide notice of this policy at least annually to the public and other stakeholders identified in this policy by one or more of the following methods: on its webpage, in its newsletter, in the student and employee handbooks, newspaper advertisements, direct mailings, electronic mail, and public postings.

In addition to identifying the topic on its meeting agenda as required by the Open Meetings Act, the school district will provide notice of the Triennial Assessment and progress reports towards meeting the goals in this policy using one or more of those same methods.

11. Recordkeeping

The District will retain records to document compliance with the requirements of the wellness policy at its central office.

12. Operational Responsibility

The superintendent is responsible for coordinating the implementation of this policy and for monitoring the district's progress in meeting the goals established by this policy. The superintendent will periodically report to the board on the district's progress in implementing this policy.

* These strategies include, but are not necessarily limited to, those cited in the Alliance for a Healthier Generation's Model Wellness Policy (Updated June 2020 to Reflect the USDA Final Rule) found at <https://api.healthiergeneration.org/resource/2>.

Title IX Policy

It is the policy of the school district that no person shall, on the basis of sex, be excluded from participation in, be denied the benefits of, or be subject to discrimination under any of the school district's programs or activities. The district is required by Title IX (20 U.S.C. § 1681) and 34 C.F.R. part 106 to not discriminate in such a manner.

1. Title IX Coordinator

1.1. Designation. The district will designate and authorize at least one employee to coordinate its efforts to comply with its responsibilities under this policy, who will be referred to as the **"Title IX Coordinator."** The district will notify applicants for admission and employment, students, parents or legal guardians of students, employees, and all unions or professional organizations holding collective bargaining or professional agreements with the district, of the name or title, office address, electronic mail address, and telephone number of the Title IX Coordinator. Any person may report sex discrimination, including sexual harassment (whether or not the person reporting is the person alleged to be the victim of conduct that could constitute sex discrimination or sexual harassment). This report may be made by any means, including but not limited to, in person, by mail, by telephone, or by electronic mail, using the contact information listed for the Title IX Coordinator, or by any other means that results in the Title IX Coordinator receiving the person's verbal or written report. Such a report may be made at any time (including during non-business hours).

2. Definitions. As used in this policy, the following terms are defined as follows:

2.1. **Actual knowledge** means notice of sexual harassment or allegations of sexual harassment to any district employee. Imputation of knowledge based solely on vicarious liability or constructive notice is insufficient to constitute actual knowledge. This standard is not met when the only district employee with actual knowledge is the respondent (as that term is defined below). “Notice” as used in this paragraph includes, but is not limited to, a report of sexual harassment to the Title IX Coordinator as described in subsection 1.1 above.

2.2. **Complainant** means an individual who is alleged to be the victim of conduct that could constitute sexual harassment.

2.3. **Formal complaint** means a document filed by a complainant or signed by the Title IX Coordinator alleging sexual harassment against a respondent and requesting that the district investigate the allegation of sexual harassment. The only district official who is authorized to initiate the Grievance Process for Formal Complaints of Sexual Harassment against a respondent is the Title IX Coordinator (by signing a formal complaint). At the time of filing a formal complaint with the district, a complainant must be participating in or attempting to participate in the district’s education program or activity. A formal complaint may be filed with the Title IX Coordinator in person, by mail, or by electronic mail, by using the contact information required to be listed for the Title IX Coordinator under subsection 1.1 above, and by any additional method designated by the district. As used in this paragraph, the phrase “document filed by a complainant” means a document or electronic submission (such as by electronic mail or through an online portal provided for this purpose by the district) that contains the complainant’s physical or digital signature, or otherwise indicates that the complainant is the person filing the formal complaint. Where the Title IX Coordinator signs a formal complaint, the Title IX Coordinator is not a complainant or otherwise a party under this policy or under 34 C.F.R. part 106, and will comply with the requirements of this policy and 34 C.F.R. part 106, including subsections 5.1.3–5.1.4 and 34 C.F.R. § 106.45(b)(1)(iii).

2.4. **Respondent** means an individual who has been reported to be the perpetrator of conduct that could constitute sexual harassment.

2.5. **Consent** for purposes of this policy means the willingness in fact for conduct to occur. An individual may, as a result of age, incapacity, disability, lack of information, or other circumstances be incapable of providing consent to some or all sexual conduct or activity. Neither verbal nor physical resistance is required to establish that an individual did not consent. District officials will consider the totality of the circumstances in determining whether there was consent for any specific conduct. Consent may be revoked or withdrawn at any time.

2.6. **Sexual harassment** means conduct on the basis of sex that satisfies one or more of the following:

2.6.1. An employee of the district conditioning the provision of an aid, benefit, or service of the district on an individual’s participation in unwelcome sexual conduct;

2.6.2. Unwelcome conduct determined by a reasonable person to be so severe, pervasive, and objectively offensive that it effectively denies a person equal access to the district’s education program or activity;

2.6.3. **Sexual assault**, as defined in 20 U.S.C. § 1092(f)(6)(A)(v), which means an offense classified as a forcible or nonforcible sex offense under the uniform crime reporting system of the Federal Bureau of Investigation:

2.6.3.1. **Sex Offenses, Forcible**—Any sexual act directed against another person, without the consent of the victim including instances where the victim is incapable of giving consent.

2.6.3.1.1. **Rape**—(Except Statutory Rape) The carnal knowledge of a person, without the consent of the victim, including

- instances where the victim is incapable of giving consent because of his/her age or because of his/her temporary or permanent mental or physical incapacity.
- 2.6.3.1.2. **Sodomy**—Oral or anal sexual intercourse with another person, without the consent of the victim, including instances where the victim is incapable of giving consent because of his/her age or because of his/her temporary or permanent mental or physical incapacity
 - 2.6.3.1.3. **Sexual Assault With An Object**—To use an object or instrument to unlawfully penetrate, however slightly, the genital or anal opening of the body of another person, without the consent of the victim, including instances where the victim is incapable of giving consent because of his/her age or because of his/her temporary or permanent mental or physical incapacity
 - 2.6.3.1.4. **Fondling**—The touching of the private body parts of another person for the purpose of sexual gratification, without the consent of the victim, including instances where the victim is incapable of giving consent because of his/her age or because of his/her temporary or permanent mental or physical incapacity
 - 2.6.3.2. **Sex Offenses, Non-forcible**—(Except Prostitution Offenses) Unlawful, non-forcible sexual intercourse.
 - 2.6.3.2.1. **Incest**—Non-Forcible sexual intercourse between persons who are related to each other within the degrees wherein marriage is prohibited by law
 - 2.6.3.2.2. **Statutory Rape**—Non-Forcible sexual intercourse with a person who is under the statutory age of consent
 - 2.6.4. **Dating violence**, as defined in 34 U.S.C. § 12291(a), which means violence committed by a person—
 - 2.6.4.1. who is or has been in a social relationship of a romantic or intimate nature with the victim; and
 - 2.6.4.2. where the existence of such a relationship shall be determined based on a consideration of the following factors:
 - 2.6.4.2.1. The length of the relationship.
 - 2.6.4.2.2. The type of relationship.
 - 2.6.4.2.3. The frequency of interaction between the persons involved in the relationship.
 - 2.6.5. **Domestic violence**, as defined in 34 U.S.C. § 12291(a), which includes felony or misdemeanor crimes committed by a current or former spouse or intimate partner of the victim under the family or domestic violence laws of the jurisdiction receiving grant funding and, in the case of victim services, includes the use or attempted use of physical abuse or sexual abuse, or a pattern of any other coercive behavior committed, enabled, or solicited to gain or maintain power and control over a victim, including verbal, psychological, economic, or technological abuse that may or may not constitute criminal behavior, by a person who—
 - 2.6.5.1. is a current or former spouse or intimate partner of the victim, or person similarly situated to a spouse of the victim;
 - 2.6.5.2. is cohabitating, or has cohabitated, with the victim as a spouse or intimate partner;
 - 2.6.5.3. shares a child in common with the victim; or

2.6.5.4. commits acts against a youth or adult victim who is protected from those acts under the family or domestic violence laws of the jurisdiction.

2.6.6. **Stalking**, as defined in 34 U.S.C. § 12291(a), which means engaging in a course of conduct directed at a specific person that would cause a reasonable person to—

2.6.6.1. fear for his or her safety or the safety of others; or

2.6.6.2. suffer substantial emotional distress.

2.7. **Supportive measures** means non-disciplinary, non-punitive individualized services offered as appropriate, as reasonably available, and without fee or charge to the complainant or the respondent before or after the filing of a formal complaint or where no formal complaint has been filed. Such measures are designed to restore or preserve equal access to the district's education program or activity without unreasonably burdening the other party, including measures designed to protect the safety of all parties or the district's educational environment, or deter sexual harassment. Supportive measures may include counseling, extensions of deadlines or other course-related adjustments, modifications of work or class schedules, campus escort services, mutual restrictions on contact between the parties, changes in work or housing locations, leaves of absence, increased security and monitoring of certain areas of the campus, and other similar measures. The district will maintain as confidential any supportive measures provided to the complainant or respondent, to the extent that maintaining such confidentiality would not impair the ability of the district to provide the supportive measures. The Title IX Coordinator is responsible for coordinating the effective implementation of supportive measures.

3. **Discrimination Not Involving Sexual Harassment.**

3.1. **General Prohibition.** Except as provided elsewhere in Title IX, 34 C.F.R. part 106, or this policy, no person shall, on the basis of sex, be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any academic, extracurricular, research, occupational training, or other education program or activity operated by the district.

3.2. **Specific Prohibitions.** Except as provided elsewhere in Title IX, 34 C.F.R. part 106, or this policy, in providing any aid, benefit, or service to a student, the district will not on the basis of sex:

3.2.1. Treat one person differently from another in determining whether such person satisfies any requirement or condition for the provision of such aid, benefit, or service;

3.2.2. Provide different aid, benefits, or services or provide aid, benefits, or services in a different manner;

3.2.3. Deny any person any such aid, benefit, or service;

3.2.4. Subject any person to separate or different rules of behavior, sanctions, or other treatment;

3.2.5. Apply any rule concerning the domicile or residence of a student or applicant;

3.2.6. Aid or perpetuate discrimination against any person by providing significant assistance to any agency, organization, or person which discriminates on the basis of sex in providing any aid, benefit or service to students or employees;

3.2.7. Otherwise limit any person in the enjoyment of any right, privilege, advantage, or opportunity.

3.3. **Complaint Procedure.** All complaints regarding any alleged discrimination on the basis of sex, including without limitation violations of this policy, 34 C.F.R. part 106, Title IX, Title VII, or other state or federal law—when the alleged discrimination does not

arise from or relate to an allegation of sexual harassment as defined in subsection 2.6 above—shall be addressed pursuant to the district's general complaint procedure, Board Policy 2006

4. **Response to Sexual Harassment**

4.1. **Reporting Sexual Harassment.** Any person who witnesses an act of unlawful sexual harassment is encouraged to report it to the District's Title IX Coordinator. No person will be retaliated against based on any report of suspected sexual harassment or retaliation. Any District employee who receives a report of sexual harassment or has actual knowledge of sexual harassment must convey that information to the Title IX Coordinator as soon as reasonably practicable, but in no case later than the end of the following school day.

4.2. **General Response to Sexual Harassment.** When the district has actual knowledge of sexual harassment in its education program or activity against a person in the United States, the district will respond promptly in a manner that is not deliberately indifferent. The district will be deemed to be deliberately indifferent only if its response to sexual harassment is clearly unreasonable in light of the known circumstances. For the purposes of this policy "education program or activity" includes locations, events, or circumstances over which the district exercised substantial control over both the respondent and the context in which the sexual harassment occurs. The district's response will treat complainants and respondents equitably by offering supportive measures as defined in subsection 2.7 above to a complainant, and by following the grievance process described in section 5 below before the imposition of any disciplinary sanctions or other actions that are not supportive measures, against a respondent. The Title IX Coordinator will promptly contact the complainant to discuss the availability of supportive measures, consider the complainant's wishes with respect to supportive measures, inform the complainant of the availability of supportive measures with or without the filing of a formal complaint, and explain to the complainant the process for filing a formal complaint.

4.3. **Emergency Removal.** Nothing in this policy precludes the district from removing a respondent from the district's education program or activity on an emergency basis, provided that the district undertakes an individualized safety and risk analysis, and determines that an immediate threat to the physical health or safety of any student or other individual arising from the allegations of sexual harassment justifies removal. In the event that the district so removes a respondent on an emergency basis, then the district will provide the respondent with notice and an opportunity to challenge the decision immediately following the removal. This provision may not be construed to modify any rights under the Individuals with Disabilities Education Act, Section 504 of the Rehabilitation Act of 1973, or the Americans with Disabilities Act.

4.4. **Administrative Leave.** Nothing in this policy precludes the district from placing a non-student employee respondent on administrative leave during the pendency of a grievance process that complies with section 5 below. This provision may not be construed to modify any rights under Section 504 of the Rehabilitation Act of 1973 or the Americans with Disabilities Act.

4.5. **General Response Not Conditioned on Formal Complaint.** With or without a formal complaint, the district will comply with the obligations and procedures described in this section 4.

5. **Grievance Process for Formal Complaints of Sexual Harassment.**

General Requirements.

5.1.1. **Equitable Treatment.** The district will treat complainants and respondents equitably by providing remedies to a complainant where a determination of responsibility for sexual harassment has been made against the respondent, and by following the grievance process described

in this section 5 before the imposition of any disciplinary sanctions or other actions that are not supportive measures against a respondent. Remedies will be designed to restore or preserve equal access to the district's education program or activity. Remedies may include the same individualized services described in subsection 2.7 as "supportive measures"; however, remedies need not be non-disciplinary or non-punitive and need not avoid burdening the respondent.

- 5.1.2. **Objective Evaluation.** This grievance process requires an objective evaluation of all relevant evidence—including both inculpatory and exculpatory evidence. Credibility determinations may not be based on a person's status as a complainant, respondent, or witness.
- 5.1.3. **Absence of Conflicts of Interest or Bias.** The district will require that any individual designated by a recipient as a Title IX Coordinator, investigator, decision-maker, or any person designated by a recipient to facilitate an informal resolution process, not have a conflict of interest or bias for or against complainants or respondents generally or an individual complainant or respondent
- 5.1.4. **Training.** The district will ensure that all individuals or entities described in this Training section 5.1.4 receive training as provided below. Any materials used to train these individuals will not rely on sex stereotypes and will promote impartial investigations and adjudications of formal complaints of sexual harassment.
 - 5.1.4.1. **All District Employees and Board Members.** All district employees and board members will be trained on how to identify and report sexual harassment.
 - 5.1.4.2. **Title IX Coordinators, Investigators, Decision-Makers, or Informal Resolution Facilitators.** The district will ensure that Title IX Coordinators, investigators, decision-makers, or any person designated by the district to facilitate an informal resolution process receive training on:
 - 5.1.4.2.1. The definition of sexual harassment in subsection 2.6;
 - 5.1.4.2.2. The scope of the district's education program or activity;
 - 5.1.4.2.3. How to conduct an investigation and grievance process including hearings, appeals, and informal resolution processes, as applicable; and
 - 5.1.4.2.4. How to serve impartially, including by avoiding prejudgment of the facts at issue, conflicts of interest, and bias.
 - 5.1.4.3. **Decision-Makers.** The district will ensure that decision-makers receive training on issues of relevance of questions and evidence, including when questions and evidence about the complainant's sexual predisposition or prior sexual behavior are not relevant, as set forth in subsection 5.6.
 - 5.1.4.4. **Investigators.** The district will also ensure that investigators receive training on issues of relevance to create an investigative report that fairly summarizes relevant evidence, as set forth in subsection 5.5.8.
- 5.1.5. **Presumption.** It is presumed that the respondent is not responsible for the alleged conduct until a determination regarding responsibility is made at the conclusion of the grievance process.
- 5.1.6. **Reasonably Prompt Time Frames.** This grievance process shall include reasonably prompt time frames for conclusion of the grievance process, including reasonably prompt time frames for filing and resolving appeals

and informal resolution processes if the district offers informal resolution processes. The process shall also allow for the temporary delay of the grievance process or the limited extension of time frames for good cause with written notice to the complainant and the respondent of the delay or extension and the reasons for the action. Good cause may include considerations such as the absence of a party, a party's advisor, or a witness; concurrent law enforcement activity; or the need for language assistance or accommodation of disabilities.

5.1.7. **Range of Possible Sanctions and Remedies.** Following a determination of responsibility, the district may impose disciplinary sanctions and remedies in conformance with this and the district's student discipline policy, and other state and federal laws. Depending upon the circumstances, these policies provide for disciplinary sanctions and remedies up to and including expulsion.

5.1.8. **Range of Supportive Measures.** The range of supportive measures available to complainants and respondents include those listed in subsection 2.7.

5.1.9. **Respect for Privileged Information.** The district will not require, allow, rely upon, or otherwise use questions or evidence that constitute, or seek disclosure of, information protected under a legally recognized privilege, unless the person holding such privilege has waived the privilege.

5.2. **Notice of Allegations.**

5.2.1. **Initial Notice.** Upon receipt of a formal complaint, the district will provide the following written notice to the parties who are known:

5.2.1.1. A copy of this policy.

5.2.1.2. Notice of the allegations of sexual harassment potentially constituting sexual harassment as defined in subsection 2.6, including sufficient details known at the time and with sufficient time to prepare a response before any initial interview. Sufficient details include the identities of the parties involved in the incident, if known, the conduct allegedly constituting sexual harassment, and the date and location of the alleged incident, if known. The written notice will include a statement that the respondent is presumed not responsible for the alleged conduct and that a determination regarding responsibility is made at the conclusion of the grievance process. The written notice will inform the parties that they may have an advisor of their choice, who may be, but is not required to be, an attorney, under subsection 5.5.5, and may inspect and review evidence under subsection 5.5.5. The written notice will inform the parties of any provision in the district's code of conduct that prohibits knowingly making false statements or knowingly submitting false information during the grievance process.

5.2.2. **Supplemental Notice.** If, in the course of an investigation, the district decides to investigate allegations about the complainant or respondent that are not included in the Initial Notice described above, the district will provide notice of the additional allegations to the parties whose identities are known.

5.3. **Dismissal of Formal Complaint.**

5.3.1. The district will investigate the allegations in a formal complaint.

5.3.2. **Mandatory Dismissals.** The district **must** dismiss a formal complaint if the conduct alleged in the formal complaint:

- 5.3.2.1. Would not constitute sexual harassment as defined in subsection 2.6 even if proved;
- 5.3.2.2. Did not occur in the district's education program or activity; or
- 5.3.2.3. Did not occur against a person in the United States.
- 5.3.3. **Discretionary Dismissals.** The district may dismiss the formal complaint or any allegations therein, if at any time during the investigation or hearing:
 - 5.3.3.1. The complainant notifies the Title IX Coordinator in writing that the complainant would like to withdraw the formal complaint or any allegations therein;
 - 5.3.3.2. The respondent is no longer enrolled in or employed by the district; or
 - 5.3.3.3. Specific circumstances prevent the district from gathering evidence sufficient to reach a determination as to the formal complaint or allegations therein.
- 5.3.4. Upon a dismissal required or permitted pursuant to subsections 5.3.2 or 5.3.3 above, the district will promptly send written notice of the dismissal and an explanation of that action simultaneously to the parties.
- 5.3.5. Dismissal of a formal complaint under this policy does not preclude the district from taking action under another provision of the district's code of conduct or pursuant to another district policy.
- 5.4. **Consolidation of Formal Complaints.** The district may consolidate formal complaints as to allegations of sexual harassment against more than one respondent, or by more than one complainant against one or more respondents, or by one party against the other party, where the allegations of sexual harassment arise out of the same facts or circumstances. Where a grievance process involves more than one complainant or more than one respondent, references in this policy to the singular "party," "complainant," or "respondent" include the plural, as applicable.
- 5.5. **Investigation of Formal Complaint.** When investigating a formal complaint and throughout the grievance process, the district will:
 - 5.5.1. Designate and authorize one or more persons (which need not be district employees) as investigator(s) to conduct the district's investigation of a formal complaint;
 - 5.5.2. Ensure that the burden of proof and the burden of gathering evidence sufficient to reach a determination regarding responsibility rest on the district and not on the parties provided that the district cannot access, consider, disclose, or otherwise use a party's records that are made or maintained by a physician, psychiatrist, psychologist, or other recognized professional or paraprofessional acting in the professional's or paraprofessional's capacity, or assisting in that capacity, and which are made and maintained in connection with the provision of treatment to the party, unless the district obtains that party's voluntary, written consent to do so for a grievance process under this section (if a party is not an "eligible student," as defined in 34 CFR 99.3, then the district will obtain the voluntary, written consent of a "parent," as defined in 34 CFR 99.3);
 - 5.5.3. Provide an equal opportunity for the parties to present witnesses, including fact and expert witnesses, and other inculpatory and exculpatory evidence;
 - 5.5.4. Not restrict the ability of either party to discuss the allegations under investigation or to gather and present relevant evidence;
 - 5.5.5. Provide the parties with the same opportunities to have others present during any grievance proceeding, including the opportunity to be

accompanied to any related meeting or proceeding by the advisor of their choice, who may be, but is not required to be, an attorney, and not limit the choice or presence of advisor for either the complainant or respondent in any meeting or grievance proceeding; however, the district may establish restrictions regarding the extent to which the advisor may participate in the proceedings, as long as the restrictions apply equally to both parties;

5.5.6. Provide, to a party whose participation is invited or expected, written notice of the date, time, location, participants, and purpose of all hearings, investigative interviews, or other meetings, with sufficient time for the party to prepare to participate;

5.5.7. Provide both parties an equal opportunity to inspect and review any evidence obtained as part of the investigation that is directly related to the allegations raised in a formal complaint, including the evidence upon which the district does not intend to rely in reaching a determination regarding responsibility and inculpatory or exculpatory evidence whether obtained from a party or other source, so that each party can meaningfully respond to the evidence prior to conclusion of the investigation. Prior to completion of the investigative report, the district will send to each party and the party's advisor, if any, the evidence subject to inspection and review in an electronic format or a hard copy, and the parties will have at least 10 calendar days to submit a written response, which the investigator will consider prior to completion of the investigative report; and

5.5.8. Create an investigative report that fairly summarizes relevant evidence and, at least 10 calendar days prior to the time of determination regarding responsibility, send to each party and the party's advisor, if any, the investigative report in an electronic format or a hard copy, for their review and written response.

5.6. Determination Regarding Responsibility

5.6.1. **Decision-Maker(s).** The decision-maker(s) cannot be the same person as the Title IX Coordinator or the investigator(s).

5.6.2. **Exchange of Written Questions.** After the district has sent the investigative report to the parties pursuant to subsection 5.5.8, but before reaching a determination regarding responsibility, the decision-maker(s) will afford each party the opportunity to submit written, relevant questions that a party wants asked of any party or witness, provide each party with the answers, and allow for additional, limited follow-up questions from each party. Questions and evidence about the complainant's sexual predisposition or prior sexual behavior are not relevant, unless such questions and evidence about the complainant's prior sexual behavior are offered to prove that someone other than the respondent committed the conduct alleged by the complainant, or if the questions and evidence concern specific incidents of the complainant's prior sexual behavior with respect to the respondent and are offered to prove consent. The decision-maker(s) will explain to the party proposing the questions any decision to exclude a question as not relevant.

5.6.3. **Written Determination.** The decision-maker(s) will issue a written determination regarding responsibility. To reach this determination, the decision-maker(s) will apply the preponderance of the evidence standard. The written determination will include:

5.6.3.1. Identification of the allegations potentially constituting sexual harassment as defined in subsection 2.6;

- 5.6.3.2. A description of the procedural steps taken from the receipt of the formal complaint through the determination, including any notifications to the parties, interviews with parties and witnesses, site visits, methods used to gather other evidence, and hearings held;
- 5.6.3.3. Findings of fact supporting the determination;
- 5.6.3.4. Conclusions regarding the application of the district's code of conduct to the facts;
- 5.6.3.5. A statement of, and rationale for, the result as to each allegation, including a determination regarding responsibility, any disciplinary sanctions the district imposes on the respondent, and whether remedies designed to restore or preserve equal access to the district's education program or activity will be provided by the district to the complainant; and
- 5.6.3.6. The district's procedures and permissible bases for the complainant and respondent to appeal.
- 5.6.4. The district will provide the written determination to the parties simultaneously. The determination regarding responsibility becomes final either on the date that the district provides the parties with the written determination of the result of the appeal, if an appeal is filed, or if an appeal is not filed, the date on which an appeal would no longer be considered timely.
- 5.6.5. The Title IX Coordinator is responsible for effective implementation of any remedies.
- 5.7. **Appeals.** The district will offer both parties the opportunity to appeal from a determination regarding responsibility, and from the district's dismissal of a formal complaint or any allegations therein, on the grounds identified below.
 - 5.7.1. **Time for Appeal.** Appeals may only be initiated by submitting a written Notice of Appeal to the Office of the Superintendent of Schools within ten (10) calendar days of the date of the respective written determination of responsibility or dismissal from which the appeal is taken. The Notice of Appeal must include (a) the name of the party or parties making the appeal, (b) the determination, dismissal, or portion thereof being appealed, and (c) a concise statement of the specific grounds (from subsection 5.8.2 below) upon which the appeal is based. A party's failure to timely submit a Notice of Appeal will be deemed a waiver of the party's right to appeal under this policy, 34 C.F.R. part, 106, and Title IX.
 - 5.7.2. **Grounds for Appeal.** Appeals from a determination regarding responsibility, and from the district's dismissal of a formal complaint or any allegations therein, are limited to the following grounds:
 - 5.7.2.1. Procedural irregularity that affected the outcome of the matter;
 - 5.7.2.2. New evidence that was not reasonably available at the time the determination regarding responsibility or dismissal was made, that could affect the outcome of the matter; and
 - 5.7.2.3. The Title IX Coordinator, investigator(s), or decision-maker(s) had a conflict of interest or bias for or against complainants or respondents generally or the individual complainant or respondent that affected the outcome of the matter.
 - 5.7.3. As to all appeals, the district will:
 - 5.7.3.1. Notify the other party in writing when an appeal is filed and implement appeal procedures equally for both parties;

- 5.7.3.2. Ensure that the decision-maker(s) for the appeal is not the same person as the decision-maker(s) that reached the determination regarding responsibility or dismissal, the investigator(s), or the Title IX Coordinator;
- 5.7.3.3. Ensure that the decision-maker(s) for the appeal complies with the standards set forth in subsections 5.1.3–5.1.4.
- 5.7.3.4. Give both parties a reasonable, equal opportunity to submit a written statement in support of, or challenging, the outcome;
- 5.7.3.5. Issue a written decision describing the result of the appeal and the rationale for the result; and
- 5.7.3.6. Provide the written decision simultaneously to both parties.

5.8. Informal Resolution. The district will not require as a condition of enrollment or continuing enrollment, or employment or continuing employment, or enjoyment of any other right, waiver of the right to an investigation and adjudication of formal complaints of sexual harassment consistent with this section. Similarly, the district will not require the parties to participate in an informal resolution process under this section and may not offer an informal resolution process unless a formal complaint is filed. However, at any time prior to reaching a determination regarding responsibility the district may facilitate an informal resolution process, such as mediation, that does not involve a full investigation and adjudication, provided that the district:

- 5.8.1. Provides to the parties a written notice disclosing:
 - 5.8.1.1. The allegations;
 - 5.8.1.2. The requirements of the informal resolution process including the circumstances under which it precludes the parties from resuming a formal complaint arising from the same allegations;
 - 5.8.1.3. That at any time prior to agreeing to a resolution, any party has the right to withdraw from the informal resolution process and resume the grievance process with respect to the formal complaint; and
 - 5.8.1.4. Any consequences resulting from participating in the informal resolution process, including the records that will be maintained or could be shared;
- 5.8.2. Obtains the parties' voluntary, written consent to the informal resolution process; and
- 5.8.3. Does not offer or facilitate an informal resolution process to resolve allegations that an employee sexually harassed a student.

5.9. Recordkeeping.

- 5.9.1. The district will maintain for a period of seven years records of:
 - 5.9.1.1. Each sexual harassment investigation including any determination regarding responsibility, any disciplinary sanctions imposed on the respondent, and any remedies provided to the complainant designed to restore or preserve equal access to the district's education program or activity;
 - 5.9.1.2. Any appeal and the result therefrom;
 - 5.9.1.3. Any informal resolution and the result therefrom; and
 - 5.9.1.4. All materials used to train Title IX Coordinators, investigators, decision-makers, and any person who facilitates an informal resolution process. The district will make these training materials publicly available on its website, or if the district does not maintain a website then the district will make these materials available upon request for inspection by members of the public.
- 5.9.2. For each response required under section 4, the district will create, and maintain for a period of seven years, records of any actions, including any

supportive measures, taken in response to a report or formal complaint of sexual harassment. In each instance, the district will document the basis for its conclusion that its response was not deliberately indifferent, and document that it has taken measures designed to restore or preserve equal access to the district's education program or activity. If the district does not provide a complainant with supportive measures, then the district will document the reasons why such a response was not clearly unreasonable in light of the known circumstances. The documentation of certain bases or measures does not limit the district in the future from providing additional explanations or detailing additional measures taken.

6. **Superintendent Authorized to Contract.** The board authorizes the Superintendent to contract for, designate, and appoint individuals to serve in the roles of the district's investigator(s), decision-maker(s), informal resolution facilitator(s), or appellate decision-maker(s) as contemplated by this policy.

7. **Access to Classes and Schools.**

7.1. **General Standard.** Except as provided in this section or otherwise in 34 C.F.R. part 106, the district will not provide or otherwise carry out any of its education programs or activities separately on the basis of sex, or require or refuse participation therein by any of its students on the basis of sex.

7.1.1. **Contact sports in physical education classes.** This section does not prohibit separation of students by sex within physical education classes or activities during participation in wrestling, boxing, rugby, ice hockey, football, basketball, and other sports the purpose or major activity of which involves bodily contact.

7.1.2. **Ability grouping in physical education classes.** This section does not prohibit grouping of students in physical education classes and activities by ability as assessed by objective standards of individual performance developed and applied without regard to sex.

7.1.3. **Human sexuality classes.** Classes or portions of classes that deal primarily with human sexuality may be conducted in separate sessions for boys and girls.

7.1.4. **Choruses.** The district may make requirements based on vocal range or quality that may result in a chorus or choruses of one or predominantly one sex.

7.2. **Classes and Extracurricular Activities.** The district may provide nonvocational single-sex classes or extracurricular activities as permitted by 34 C.F.R. part 106.

8. **Athletics.** It is the policy of the district that no person shall, on the basis of sex, be excluded from participation in, be denied the benefits of, be treated differently from another person or otherwise be discriminated against in any interscholastic, club, or intramural athletics offered by the district, and that the district will not provide any such athletics separately on such basis.

8.1. **Separate Teams.** Notwithstanding the foregoing paragraph, the district may operate or sponsor separate teams for members of each sex where selection for such teams is based upon competitive skill or the activity involved is a contact sport.

8.2. **Equal opportunity.** The district will provide equal athletic opportunity for members of both sexes. Unequal aggregate expenditures for members of each sex or unequal expenditures for male and female teams will not constitute noncompliance with this section.

9. **Certain Different Treatment on the Basis of Sex Permitted.** Nothing herein shall be construed to prohibit the district from treating persons differently on the basis of sex as permitted by Title IX or 34 C.F.R. part 106. For example, and without limiting the foregoing, the district may provide separate toilet, locker room, and shower facilities on the basis of sex, but such

facilities provided for students of one sex shall be comparable to such facilities provided for students of the other sex.

10. Retaliation Prohibited. Neither the district nor any other person may intimidate, threaten, coerce, or discriminate against any individual for the purpose of interfering with any right or privilege secured by Title IX, 34 C.F.R. part 106, or this policy, or because the individual has made a report or complaint, testified, assisted, or participated or refused to participate in any manner in an investigation, proceeding, or hearing under this policy. The district will keep confidential the identity of any individual who has made a report or complaint of sex discrimination, including any individual who has made a report or filed a formal complaint of sexual harassment, any complainant, any individual who has been reported to be the perpetrator of sex discrimination, any respondent, and any witness, except as may be permitted by the FERPA statute, 20 U.S.C. § 1232g, or FERPA regulations, 34 C.F.R. part 99, or as required by law, or to carry out the purposes of 34 C.F.R. part 106, including the conduct of any investigation, hearing, or judicial proceeding arising thereunder. Complaints alleging retaliation may be filed according to shall be addressed pursuant to Board Policy 2006 (Complaint Procedure).

10.1. Specific Circumstances.

10.1.1. The exercise of rights protected under the First Amendment does not constitute retaliation prohibited by this section.

10.1.2. Charging an individual with a code of conduct violation for making a materially false statement in bad faith in the course of a grievance proceeding under this part does not constitute retaliation prohibited under this section, provided, however, that a determination regarding responsibility, alone, is not sufficient to conclude that any party made a materially false statement in bad faith.

11. Notification of Policy. The district will notify applicants for admission and employment, students, parents or legal guardians of students, employees, and all unions or professional organizations holding collective bargaining or professional agreements with the district of the existence of this policy. The requirement to not discriminate, as stated in Title IX and 34 C.F.R. part 106, in the district's education program(s) or activities extends to admission and employment, and inquiries about the application of Title IX and 34 C.F.R. part 106 to the district may be referred to the district's Title IX Coordinator, the Assistant Secretary for Civil Rights of the United States Department of Education, or both.

12. Publication of Policy. The district will prominently display on its website, if any, and in each handbook that it makes available to applicants for admission and employment, students, parents or legal guardians of students, employees, and all unions or professional organizations holding collective bargaining or professional agreements with the district, the name or title, office address, electronic mail address, and telephone number of the employee or employees designated as the Title IX Coordinator(s).

13. Application Outside the United States. The requirements of this policy apply only to sex discrimination occurring against a person in the United States.

14. Scope of Policy. Nothing herein shall be construed to be more demanding or more constraining upon the district than the requirements of Title IX (20 U.S.C. § 1681) and 34 C.F.R. part 106. To the extent that the district is in compliance with Title IX and 34 C.F.R. part 106, then all of the district's obligations under this policy shall be deemed to be fulfilled and discharged.

AUTHORIZATION AND ACKNOWLEDGEMENT

WARNING: SERIOUS CATASTROPHIC AND PERHAPS FATAL INJURY MAY RESULT FROM ATHLETIC PARTICIPATION

Many forms of athletic competition result in violent physical contact among players, the use of equipment that may result in accidents, strenuous physical exertion, and numerous other exposures to risk of injury. Students and parents must assess the risks involved in such participation and make their choice to participate in spite of those risks. No amount of instruction, precaution, or supervision will eliminate these risks. Students have suffered accidents resulting in death, paraplegia, quadriplegia, and other very serious permanent physical impairment while playing sports. By granting permission for your student to participate in athletic competition, you, the parent or guardian, acknowledge that such risk exists. Students will be instructed in proper techniques to be used in athletic competition and in the proper utilization of all equipment worn or used in practice and competition. Students must adhere to that instruction and utilization and must refrain from improper uses and techniques.

I understand the statement above and I understand that by allowing my student to participate in athletic events, I assume the risk that he/she may be injured, perhaps severely.
